Care Coordination Training

January 28th from 9 am to 5 pm – Overland Park, KS

Kansas Special Health Care Needs program is partnering with Region 4 Midwest Genetics Collaborative and Heartland Genetics for parents of children with special health care needs or disabilities*.

The purpose of this training is to help parents learn:

- How to identify a medical home
- Techniques to organize information and find reliable resources
- How to navigate health care and insurance systems
- Skills to increase communication and coordination between multiple providers
- How to plan early for child's transitions
- Ideas for coping with stress and finding support
- Advocacy skills

What is Care Coordination?

"A needs driven, team based process that values families as essential partners. Care Coordination is intended to integrate care among multiple service providers, enhance the caregiving ability of the family, and maximize the potential of the child."

Participants will be eligible to receive a $100 gift card upon completion of the training.
