Notice Concerning Proposed Kansas Air Quality Class I Operating Permit Renewal

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality operating permit. Linn Operating, Inc. has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Linn Operating, Inc., 600 Travis St., Suite 5100, Houston, TX 77022, owns and operates Ulysses South Main Compressor Station located at Section 5, Township 30 South, Range 38 West, Grant County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation, and all information relied upon during the permit application review process are available for public review during normal business hours at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. Also, a copy of the proposed permit only can be reviewed at the Southwest District Office, 302 West McArtor Rd., Dodge City, KS 67801. To obtain or review the proposed permit and supporting documentation, contact Ashley Eichman, (785) 296-1713, at the central office of the KDHE, and to review the proposed permit only, contact Ethel Evans, (620) 356-1075, at the Southwest District Office. The standard departmental cost will be assessed for any copies requested.

Please direct written comments or questions regarding the proposed permit to Ashley Eichman, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than the close of business on October 22, 2012.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sharon Burrell, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than the close of business on October 22, 2012 in order for the Secretary of Health and Environment to consider the request.

The United States Environmental Protection Agency (USEPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the USEPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the USEPA to review the permit. The 60-day public petition period will directly follow the USEPA 45-day review period. Interested parties may contact KDHE to determine if the USEPA 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Ward Burns, USEPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th Street, Kansas City, Kansas 66101, (913) 551-7312, to determine when the 45-day USEPA review period ends and the 60-day petition period commences.

Robert Moser, MD, Secretary

Kansas Department of Health and Environment
