

Ask Ken!

ELECTRONIC SUBMISSION OF DATA & CVRS

Q. I am on WebMCH, do I have to enter immunizations into WebMCH?

A. If you enter the immunizations into the immunization registry, you do not have to enter the data into WebMCH. If you do not report certain immunizations into the immunization registry (such as immunizations not done with VFC vaccine), you do have to enter those types of immunizations into WebMCH.

Q. I am a nurse and a mother brings in an infant for services. I counsel or educate the mother and have referrals. Do I fill out a CVR for the mother too?

A. Yes, she would be postpartum (program 3) in M & I.

Q. Do I have to do a CVR for immunizations?

A. Yes.

* * * * *

The Kansas MCH Health Service Manual is now online at www.kdheks.gov/doc_lib/index.html. This is an excellent reference and readily available. This replaces the green binder notebooks that were previously required to have available.
