

Ask Ken!

ELECTRONIC SUBMISSION OF DATA & CVRS

Q. In WebMCH: When you are attempting to create a new case and there is already an existing case for this client, is there a warning that indicates not to do this?

A. Yes, there is a warning not to create two cases for the same client. Please read this warning and enter the encounter data into the original existing case. I have a program that identifies user duplication errors now. If you have any questions, please feel free to phone me at 785-296-1305.

Q. If we are on KIPHS or filling out CVRs, do we have to report immunizations on KIPHS or CVRs?

A. Yes, immunizations are a reportable service in both the KIPHS system and when submitting data on CVRs. Only those who submit data on WebMCH need not enter immunizations in addition to the other MCH services provided.
