

Pregnancy Maintenance Initiative (PMI)

Project Goals

- Pregnancy women unable to pay for pregnancy care will not be denied the delivery or provision of pregnancy maintenance services
- Provide individual participants adoption services, education or information
- Increase levels of self-sufficiency and goal-directedness relating to their futures and that of their children.

Funding

Priority is to continue funding of local agencies that consistently meet contract objectives, reporting requirements, and participate in education updates. Grants are subject to availability of funds.

- a. Match: Local matching funds are a dollar for dollar match by participating organization.
- b. Local PMI Services: Applicants should adhere to utilization of funding as described in the [Senator Stan Clark Pregnancy Maintenance Initiative Grant Program](#).
- c. No grant under PMI shall be entered into with any group performing, promoting, referring for or educating in favor of abortion.
- d. No part of the grant moneys shall be used for any political purposes.

Specific Program Information

- a. Application – Follow the KDHE “SFY2014 Grant Application Guidance” instructions. The application budget must include expenses for staff to attend yearly education updates.
- b. Services – See: [Senator Stan Clark Pregnancy Maintenance Initiative Grant Program](#).
- c. SFY 2014 Outcome Objectives:
 1. After entry into the PMI program, 100 percent of the pregnant females will receive adequate prenatal care, as measured by the Kansas Prenatal Care Index.
- d. Program Protocols:
 1. PMI services and protocols are described in the “[Senator Stan Clark Pregnancy Maintenance Initiative Grant Program Application and Program Procedures](#).”
- e. Other:
 1. As a condition of accepting grant funds, the Grantee will be required to input records data in development of the annual report to the State Legislature which will include:
 - Number of women utilizing pregnancy maintenance initiative services,
 - Percentage of funds used for pre-natal services and the percentage used for post-birth services
 - Number of women choosing adoption.
 2. The grantee will provide for orientation and training of new staff. Grantee staff will participate in the annual PMI training.
 3. Technical assistance will be provided via phone and/or KDHE staff may conduct on-site visits. A corrective action plan for issues identified during the said site visits will be established and implemented as indicated.

Reporting Requirements

Refer to the KDHE “SFY 2014 Grant/Contract Reporting Instructions.”
