KDHE Waste Management Plan

Manure application fields listed may not be shared for waste application with other facilities. If you need help filling out this form, call the KDHE Central Office at (785) 296-6432. Fill out both pages.

Date: _________________________

Name of Facility ________________________________________________________________

Name of Applicant _______________________________________________________________

Permit Number ________________ Contact Phone # _______________________________

The required retention structure operating levels are specified in Section B, Table 1 of your current Kansas Water Pollution Control Permit for Agricultural and Related Wastes.

1. Check the method(s) of dead animal disposal utilized at your facility.
   - □ Burial
   - □ Incineration: an additional permit is required, contact KDHE air quality at 785-296-1570
   - □ Rendering
   - □ Composting: Anticipated use: □ Bedding □ Fertilizer □ Export

2. How is freshwater runoff (produced by rainfall) controlled or diverted around the confined feeding area(s) and waste retention structure(s)? Check all that apply.
   - □ Diversion/Terraces
   - □ Channel/Waterway
   - □ Natural Topography
   - □ Other ________________________________________________________________
   - □ Not Diverted

3. What method of solid waste disposal is utilized? Check all that apply.
   - □ Export
   - □ Broadcast
   - □ Broadcast/Cultivate
   - □ Compost: Anticipated use: □ Bedding □ Fertilizer □ Export
   - □ Other ________________________________________________________________

4. What management practices will be used to minimize flies, dust, odors and other nuisance conditions, which may occur at the facility and land application sites? Check all that apply.
   - □ Bait
   - □ Spray
   - □ Wasps
   - □ Incorporation
   - □ Other ________________________________________________________________
5. Complete the table below to identify land available for disposal of solids and liquids. Make as many copies of this page as needed.

Note: Leave the sensitive groundwater area column blank. KDHE will make a determination upon receipt/review of the plan and complete that column for you. Soil testing of land application areas is required only within sensitive groundwater area(s). Is the land owned, leased, or available only through agreement?

*Manure application fields listed may not be shared for waste application with other facilities.*
