Mother, Father, Toddler and Baby

30 Second PSA – Seasonal Flu

Mother: Who needs the flu vaccine?

Mother/Father: You do!

Mother: Our family's health is vitally important.

Father: That's why we got the flu vaccine. [Father high-fives toddler son.]

Mother: The flu vaccine is safe and effective. Sophie's only two months old so she's too young to get the flu vaccine. We want to protect her from getting the flu.

Father: Getting the flu vaccine was an easy decision for us. The flu ends with you!

Narrator: Stay healthy. Get vaccinated. A message from the Kansas Department of Health and Environment.
