# Kansas Health Care Reform Study Objectives

## Kansas Health Care Reform Option Goals:

1. **Provide and protect affordable health insurance** for all Kansans in order to ensure appropriate access to health care;
2. **Pay for prevention and a primary care medical home** in order to improve health outcomes, coordinate care, and drive down health care costs;
3. **Promote personal responsibility** in order to embrace healthy behaviors and to contribute to the cost of health insurance, based on ability to pay.

We have been hired to help with #1 by developing a model which presents options to providing affordable health insurance.

This project was developed with the financial support of the United Methodist Health Ministry Fund, Sunflower Foundation, Health Care for Kansans, the REACH Healthcare Foundation, and the Health Care Foundation of Greater Kansas City.
