

# *Quality and Efficiency*

*July 15, 2008*

***Members:***

**Michael Aldridge (KFMC)**

**Sonja Armbruster (KPHA)**

**Carol Badsky (BCBSKS)**

**Bob Bonney (St. Luke's Health Systems)**

**Ande Bozarth (AARP) Brad Frederick (KAHSA)**

**Dr. Doren Fredrickson (KUMC-Wichita)**

**Lori Howard (KFMC)**

**Melissa Hungerford (KHA)**

**Paula Marmet (KDHE)**

***Members Continued:***

**Hareesh Mavoori (KHPA)**

**Ghazala Perveen (KDHE)**

**Sally Perkins (KHA)**

**Allison Peterson (KMS)**

**Nancy Pierce (KHCA)**

**Larry Pitman (KFMC)**

**Terri Roberts (KSNA)**

**Deborah Stern (KHA)**

**Members Continued:**

**Candace Taylor (KHPA)**

**Chris Tilden (KDHE)**

**Maren Turner (AARP)**

**Lynne Valdivia (KFMC)**

**Supported by:**

**LaVerta Greve (KHPA)**

**Aleah Mahan (KFMC)**

# Purpose

- 1. Select criteria of selection of measures to be reported.**
- 2. Choose and prioritize Quality & Efficiency measures for public reporting.**
- 3. Identify essential elements to include in report design.**

# Purpose

- 4. Identify existing and needed data to produce these reports.**
- 5. Coordinate with any current initiatives in other agencies and organizations.**
- 6. Create strategy for capacity building and staffing for routine reporting.**

# **Goal**

**Recommendations of  
Quality & Efficiency Measures  
ready for presentation to the Data  
Consortium by October 2008**

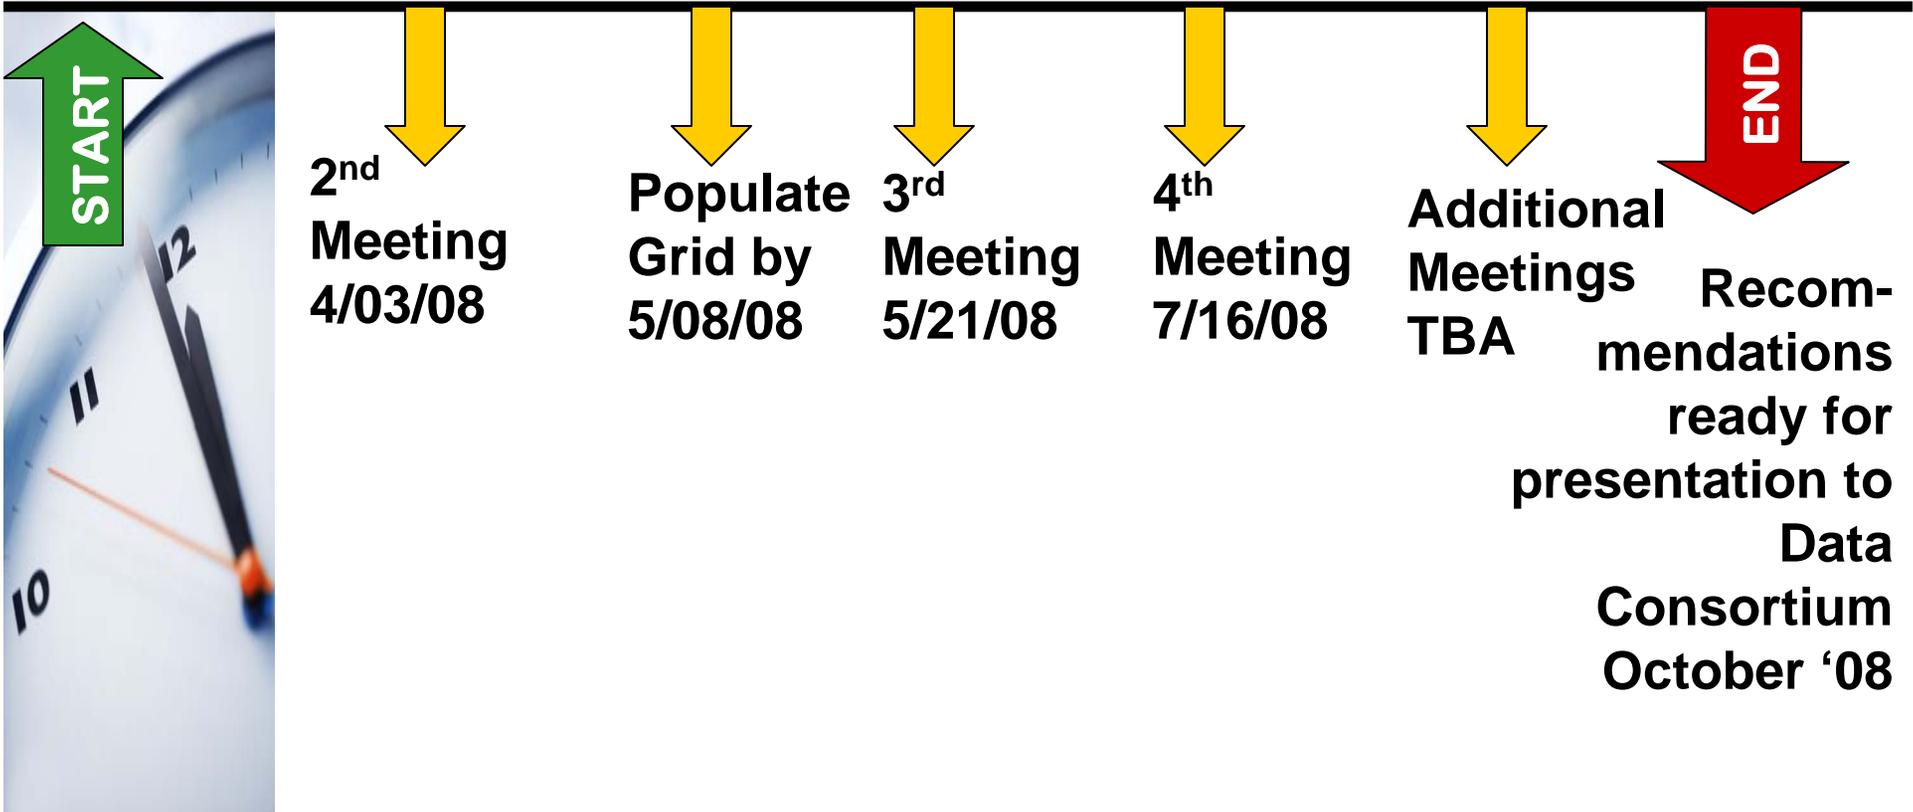

## **Recommendations will include the following:**

- **List of 20-50 measures for public reporting.**
- **Measures identified as tier 1, 2 or 3.**
- **Target audience identified for each of the measures – Consumers, Policymakers or both.**

**1<sup>st</sup> Meeting**  
**3/12/08**

# **Synopsis of Discussions**

**First meeting (03/13/08) discussion focused on stating purpose of group, workplan was developed and the following recommended reading was encouraged:**

**“National Performance Measurement Data Strategy”**

# **Synopsis of Discussions**

**Second meeting (04/03/08) discussion focused on determining what information is desired by the marketplace, how best to separate measures into categories, how narrowly to define “tier 1” data and to focus on tier 1 but to identify other tiers.**

# **Synopsis of Discussions**

**Third meeting (05/21/08) activity focused on identifying the quality measures from the over 400 measures that had been identified, and selecting those most important to Kansas. We will eventually narrow the recommended measures to a more workable number of 20 – 50 measures.**

# Steps Taken or to be Taken

# Steps Taken

- 1. Explore issues of “what consumers want to know.” Obtain lists of consumer-desired quality measures.**

# **Steps to be Taken**

- 1. Share the Healthy People 2010 framework with all other Data Consortium workgroups.**
- 2. Populate the grid with the 23 “Healthy Kansas 2010,” quality measures.**
- 3. Revise grid to incorporate modifications made in selection criteria.**

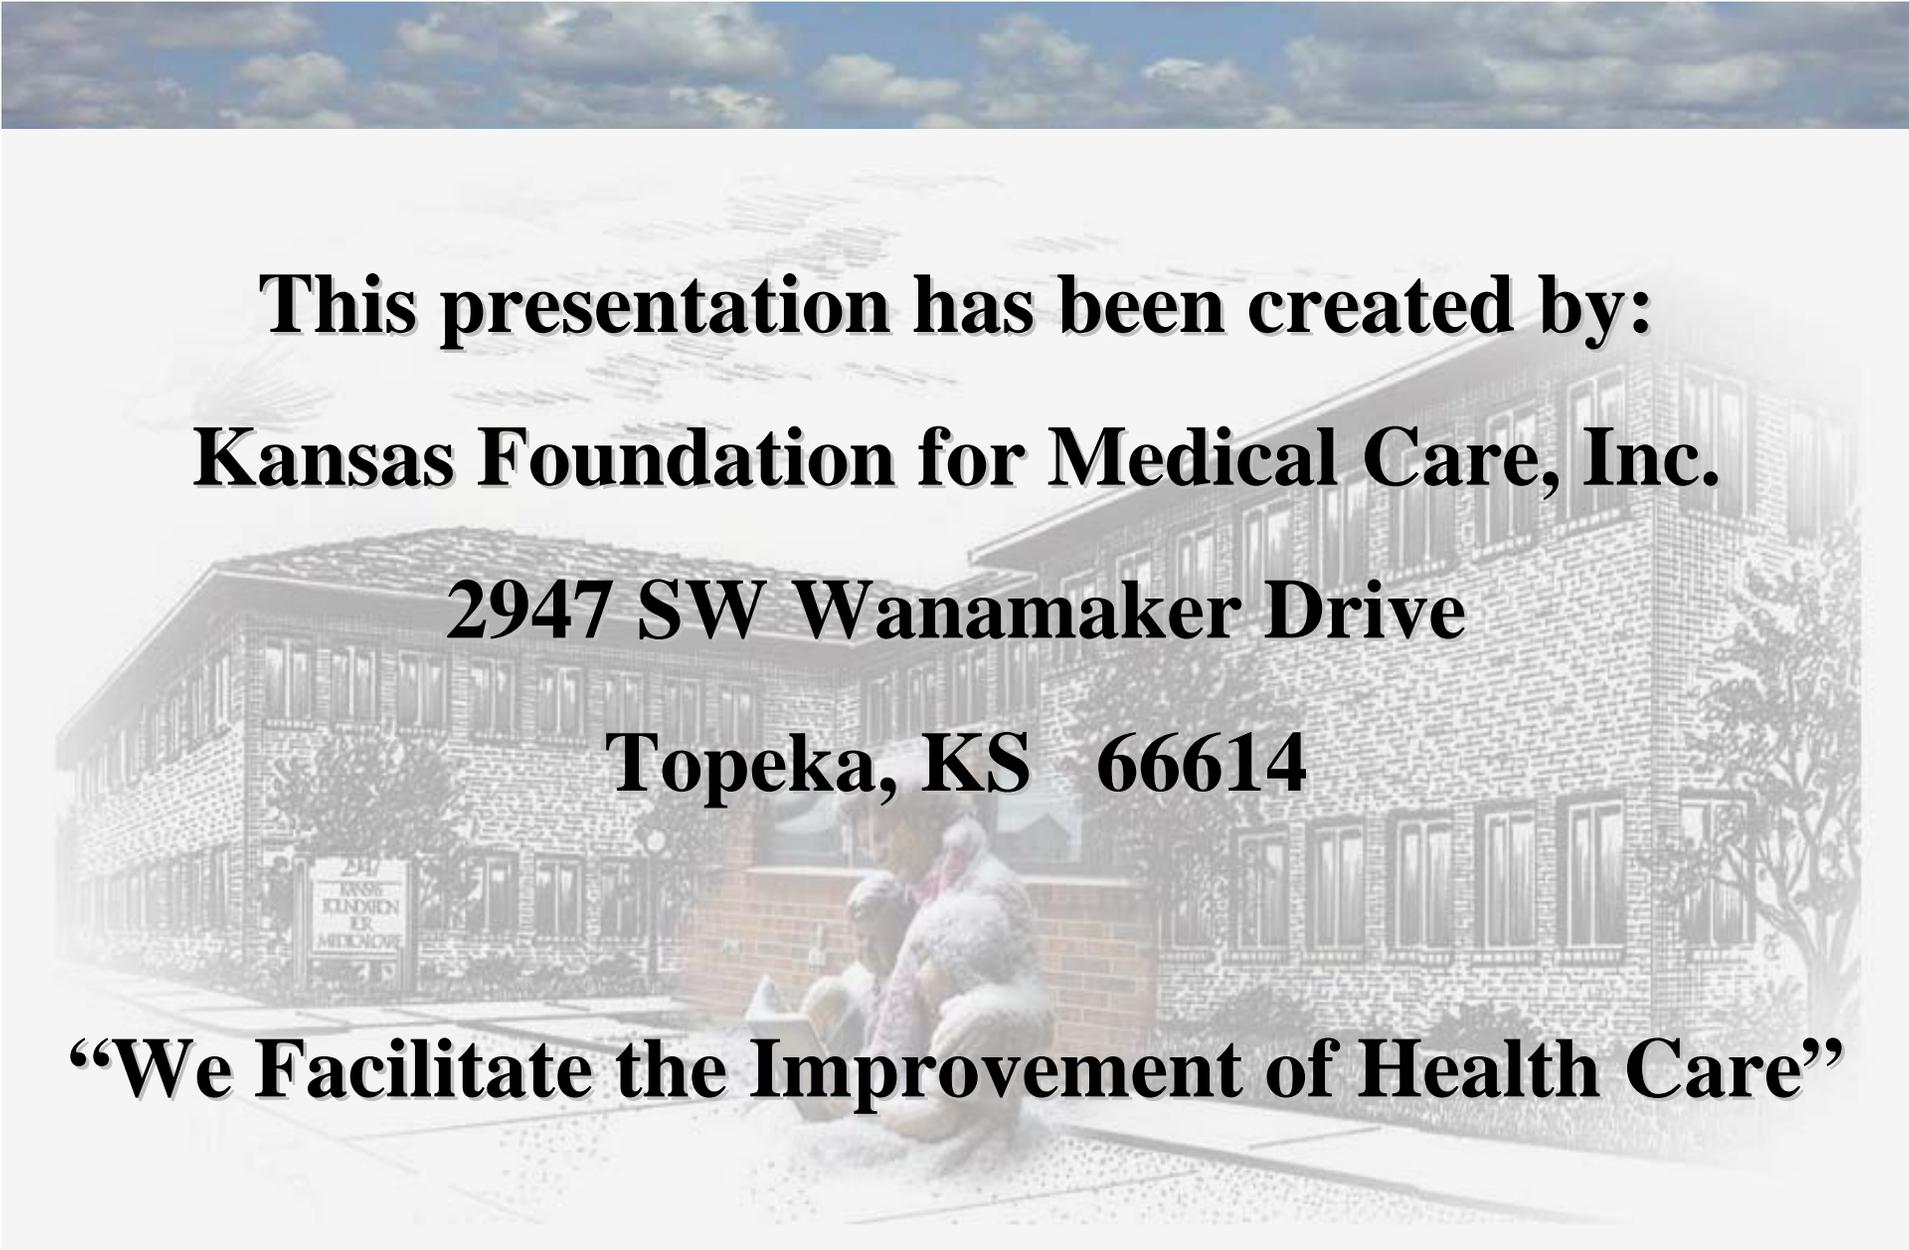

# Steps to be Taken

- 4. Select approximately 20+ measures from lists provided at meeting or from other sources.**
- 5. Provide work product to KHPA Data Consortium.**
