Kansas Health Information Technology Survey

Welcome to the Kansas Health Information Technology survey.

This survey will help provide a clear picture of Health Information Technology adoption and utilization in Kansas among healthcare providers. The survey will establish the baseline measurement necessary to support the planning and operations of Kansas Health Policy Authority (KHPA), Kansas State Medicaid HIT Plan (SMHP), The Kansas Foundation for Medical Care (KFMC) Regional Extension Center and Kansas Department of Health and Environment's (KDHE) Health Information Exchange Initiative.

Your time in completing the survey is very much appreciated.

To begin the survey, Please click the "next" button.

Kansas Health Information Technology Survey

1. What best describes your provider type?

- ○ Hospital
- ◉ Provider Practice
- ○ Nursing Home or Long Term Care Facility
- ○ Other Provider

2. Physician Practices

- ○ Solo primary care practice
- ○ Solo specialty care practice
- ○ Primary care group or partnership
- ○ Single specialty group or partnership
- ○ Multi-specialty group or partnership
- ○ Hospital-based provider

Note: If you wish to pause the survey at any time, be sure to press the save button before closing your web browser. That way, the data will be saved and available when returning to the survey later.

Kansas
Health Information Technology
Survey

Thank You for completing the survey.

The information you have provided will be used in order to draw a baseline regarding the utilization of Health Information Exchange (HIE) and the adoption of Electronic Health Record (EHR)technology within Kansas. This will assist the State of Kansas in identifying priorities for Health Information Technology Investments over the next five years.

If you would like to review or print your responses, please click on the Review button below.

Please click on the Finish button below to submit your survey response.
