This fact sheet was last updated on November 19, 2007. Additional Medicaid Fact Sheets available at <http://www.kff.org/MFS/>.

All data are drawn directly from [statehealthfacts.org](http://statehealthfacts.org), Kaiser's continuously updated database for state-level health data. More detailed notes and sources are available by following the online links from each topic on the fact sheet.

## Demographic Profile

### Total Residents, Income, Age, Race/Ethnicity, Citizenship, Population Living in Non-Metropolitan Areas

Source: KCMU and Urban Institute analysis of the Current Population Surveys, March 2006 and 2007.

Notes: These demographic data may differ from Census Bureau figures due to grouping by health insurance unit (HIU) rather than household. A Metropolitan Statistical area must have at least one urban cluster of at least 10,000 but less than 50,000 population. A Non-Metropolitan Statistical Area lacks at least one urbanized area of 50,000 or more inhabitants.

### Median Annual Income

Source: U.S. Census Bureau, Current Population Survey, 2005, 2006, and 2007 Annual Social and Economic Supplements. Three-Year-Average Median Household Income by State: 2004-2006

## Health Insurance Coverage

### Medicaid, Uninsured, Medicaid, Employer-Sponsored Insurance, Individual Insurance, Other Public, Percentage Point Change in the Rate of Coverage of the Nonelderly Population (0-64 years old)

Source: KCMU and Urban Institute analysis of the Current Population Survey (CPS), March 2006 and 2007.

Notes: State figures are based on pooled 2005 and 2006 data; U.S. figures are based on 2006 data.

## Medicaid

### Total Enrollment

Source: The Urban Institute and KCMU estimates based on data from MSIS reports from CMS for FY2004.

### % Enrolled in Managed Care

Source: Medicaid Managed Care Penetration Rates by State as of December 31, 2006, CMS, DHHS.

### Total Medicaid Spending in Millions

Source: Urban Institute estimates for KCMU based on CMS Form 64 for FY2006.

Notes: All spending includes state and federal expenditures. Expenditures include benefit payments and disproportionate share hospital payments; do not include administrative costs, accounting adjustments, or the U.S. Territories. Total spending including these additional items was about \$315.3 billion in FY2006.

### Per Enrollee Medicaid Spending and Distribution by Group

Source: The Urban Institute and KCMU estimates based on data from MSIS reports from CMS for FY2004.

### Multiplier and Federal Matching Rate

Source: KCMU calculations based on the FMAPs as published in the Federal Register.

Notes: The multiplier is based on the FMAP and represents the amount of federal funds a state receives for every dollar it spends on Medicaid. The rate varies year to year and is based on each state's relative per capita income. It ranges from a low of 50% to 76%, averaging roughly 60% nationally. For FY2007, the rate for Alabama was 1:2.21 (68.85%).

### State Medicaid Spending as % of State General Fund

Source: 2005 State Expenditure Report, National Association of State Budget Officers

Notes: A state's general fund is the predominant fund for financing a state's operations.

### Medicaid Eligibility Levels

Source: *Resuming the Path to Health Coverage for Children and Parents: A 50-State Update on Eligibility Rules, Enrollment and Renewal Procedures, and Cost-Sharing Practices in Medicaid and SCHIP in 2006*, The Center on Budget and Policy Priorities for KCMU, January 2007; and Medicaid Eligibility, DHHS, CMS.

Notes: All dollar figures represent the annual income for a family of three. For Working Parents, the U.S. figures represent the median annual income in dollars and as a percent of the FPL. For other groups, the U.S. figures represent the federal minimum annual income in dollars and as a percent of the FPL.

### Medicaid and Medicare Dual Eligibles

Sources: *Dual Eligibles: Medicaid Enrollment and Spending for Medicare Beneficiaries in 2003*, Urban Institute for KCMU, July 2005.

CMS Statistics: Medicare State Enrollment, CMS. *An Update on the Clawback: Revised Health Spending Data Change State Financial Obligations for the New Medicare Drug Benefit*, KCMU, March 2006.

## SCHIP

### Eligibility Income Level for a Family of Three

Source: *Resuming the Path to Health Coverage for Children and Parents: A 50-State Update on Eligibility Rules, Enrollment and Renewal Procedures, and Cost-Sharing Practices in Medicaid and SCHIP in 2006*, The Center on Budget and Policy Priorities for KCMU, January 2007; and Medicaid Eligibility, DHHS, CMS.

Notes: The levels are for separate SCHIP programs only. The following states do not have a separate SCHIP program: AK, AR, DC, HI, LA, MN, MO, NE, NM, OH, OK, RI, SC, TN, WI.

### Current SCHIP Enrollment

Source: Collected by Health Management Associates for KCMU. Data as of June 2006.

Notes: Figures represent the current monthly enrollment. TN phased out its Medicaid expansion program in September 2002.

### Total SCHIP Spending

Source: FY2006 SCHIP Expenditures (state and federal), CMS, Special Data Request.

## Abbreviations

**CMS:** Centers for Medicare and Medicaid Services

**DHHS:** U.S. Department of Health and Human Services

**FMAP:** Federal Medical Assistance Percentage

**FPL:** Federal Poverty Level (The FPL for 48 states was \$16,090 for a family of 3 in 2005; Alaska \$20,110 and Hawaii \$18,510.)

**KCMU:** The Kaiser Commission on Medicaid and the Uninsured

**MSIS:** Medicaid Statistical Information System

**SCHIP:** State Children's Health Insurance Program
