State Employee Health Plan (SEHP) – Direct Bill Automated Clearinghouse Enrollment Helpful Tips

Type of Request	ADD	Check “ADD” if you do not currently participate in ACH draft.
	CHANGE	Check “CHANGE” if you currently participate in ACH but want to change the bank account information.

Member Information

The information you'll enter in this section is specific to the State of Kansas Direct Bill member. We need the Direct Bill member's name in order to validate their account information and correctly enroll them in ACH draft. In addition to the Direct Bill member's name, you need to provide us with either the Direct Bill member's Social Security number or the employee identification number.

Social Security Number: This is the nine-digit number issued to you by the Social Security Administration.

OR

Employee Identification Number (EIN): At the time of their initial employment, each State of Kansas employee is issued a unique State of Kansas Employee Identification number. This number is used to identify the retiree as an SEHP member by SEHP and HP to manage the retiree's health insurance benefits. The EIN is 11-digits long.

Bank Account Information

The information we need in the Bank Account section is specific to the bank account owner. This information could be different from the actual member. For example, if the child of a member is authorizing HP to draft their parent's premium payment from the child's account, the parent's information would be listed in the Member Information section and the child's bank account information would be provided in the Bank Account section. If there is more than one owner listed on the bank account, please simply provide the owner's name who will be signing the form.

Bank Routing Number: The bank routing number is a unique 9-digit number that identifies your bank. You can find your bank's routing number on the bottom of a blank check. In the numbers across the bottom of a check, the routing number will be the first 9-digits. If you do not have a check for this account or do not know the routing number, please contact your bank. Unfortunately, we do not have access to this information on behalf of your bank.

Acct. Number: Please print the account number assigned to your account by your bank. For checking accounts, you can find your checking account number at the bottom of your check immediately after the special symbol that follows the bank routing number. However, when reading these numbers, do not include the last four numbers in this row because those numbers are your actual check number. If you are unable to determine your account number, please contact your bank.

The form must be signed by an individual listed in the Bank Account section as the account owner.
