The State Employee Health Plan (SEHP) is a self-insured program governed by The State of Kansas Health Care Commission (HCC). The HCC was established in 1984 by the legislature for the purpose of developing and providing for implementation and administration of a comprehensive health benefit program through the SEHP. This health benefit program is for State of Kansas employees and retirees as well as employees and retirees of other eligible public entities who have elected to participate in the SEHP.

The SEHP has offered self-insured programs since the early 1990's, but went fully self-insured on all medical plans as of January 1, 2008. Being a self-insured program means rather than paying a premium and transferring the risk to an insurance company, the state and affiliated non state entities and their employees pay monthly contributions. Claims for all eligible members are paid out of these contributions. In the event that the SEHP should have insufficient funds to pay claims, the State and affiliated non state groups could be assessed an additional amount determined by the HCC. To date, the HCC has never made such an assessment. Interested parties can track the funding balances by reviewing the HCC minutes [here](#):

In 1999, the HCC established administrative procedures and eligibility requirements to allow for inclusion of Unified School Districts, community colleges, technical colleges and vocational technical schools into the SEHP. K.A.R. 108-1-3 outlines these requirements The HCC expanded the program to include of public employers (cities, counties, townships etc.) under K.A.R. 108-1-4. The HCC is responsible for determining eligibility of public employers to participate while maintaining the integrity of the state employee plan, and in compliance with the criteria outlined K.S.A. 75-6506. The participation criteria outlined in K.S.A. 75-6506 is included in this packet.

## State Employees Health Plan – Non State Entities

Choice is important to employees. Therefore, SEHP provides different medical vendors from which participating employees may choose coverage. SEHP provides a complete package of benefits with medical, prescription drug, dental and vision coverage options available. The health care options are summarized in this packet.

- Participants enrolled in the medical coverage are automatically enrolled in the prescription drug benefit.
- Employees electing medical coverage will have the option to elect or waive dental coverage.
- An employee can choose dependent dental if the dependents are covered under the medical plan.
- The vision plan is an optional program. Participants may choose vision coverage regardless of what they select for their medical or dental plan.
- An open enrollment period is held each year so members can make changes in health plan selections to meet their needs.
- Non state entities are responsible for educating their employees about the SEHP options during open enrollment.

The employer contribution of premiums is a calculated composite rate determined by the Health Care Commission. The Non-State employer rate reflects the State of Kansas' contribution towards state employees. The employer premium contribution is subject to change annually on 1 July. The employer contribution amount is the same regardless of health plan chosen. If the Commission changes the employer contribution rates during the standard 3-year contract period all participating employers will be required to meet the changed contribution rates.

For new groups enrolling there are “ramp-up” options available if the public employer cannot otherwise meet the contribution requirements. The “ramp-up” option is a budgetary method of starting at a lower employer contribution amount and increasing the amount over two or three fiscal years (up to five years for dependents) to meet the state's required contribution. The employee rate will be increased by the difference between the state's required contribution amount and the “ramp-up” option used. If any “ramp-up” option is used, the contract period is five calendar years: otherwise the contract is for three calendar years.

## Documentation Requirements for Enrollment

### Employees must provide:

- A copy of their original state marriage certificate – if covering a spouse. A copy of first and last page of the most recent Federal Income Tax form may be used in place of a marriage certificate.
- Copy of birth certificates, if covering children. Birth certificate must list the names of the father, mother and child.
- Social Security Numbers for everyone covered under the policy.
- Medicare information, if Medicare eligible. Medicare eligible employees must complete TEFRA form at time of enrollment.

## **Eligibility Rules**

1. Eligible employees for coverage under the SEHP include:
  - Educational group employees working 630 hours or more per year.
  - Public employees working 1000 hours or more per year.
2. Eligible dependents include
  - The employee's lawful spouse.
  - Children or step children up to age 26.
3. Retirees of a participating group are eligible for coverage **if** they are covered by the non state entity's health plan on the day before the group joins the SEHP.
4. Employees hired after the effective date of the group with the SEHP will be subject to a 30 day waiting period before they are eligible to join the plan. New employees coverage is effective the first of the month following the completion of the 30 day waiting period.
5. Dependents may not be covered under more than one SEHP contract. This applies to all dependents covered under the SEHP regardless of whether they are covered under a state or non state entity plan.
6. For newly hired employees enrolling in the SEHP, there is a thirty (30) day waiting period. Health plan coverage begins the first day of the month following completion of the thirty (30) day waiting period. The waiting period may be reduced or waived in accordance with K.A.R. 108-1-3 for educational entities and 108-1-4 for all other public employers. The request for a waiver of the waiting period must be submitted and approved by SEHP before an offer of employment is given.
7. The SEHP does not apply a waiting period for pre-existing conditions. Therefore, certificates of creditable coverage are not required.

**NOTE:** This is a sample of the eligibility requirements for the SEHP.

## Rates

- **Employer** contribution rates are determined by the Commission. Currently, the employer contribution shall be a monthly composite rate: a weighted average of all plan premiums or costs.
- The **employee** contribution rate will be a monthly rate reflecting a percentage of the selected individual health plan costs.
- The **employer** contribution rates are assessed and paid during the State's fiscal year: July 1 – June 30
- The **employee** contribution rates are assessed and paid during the State's plan year: January 1 – December 31.

## Information Required by the State Employee Health Benefit Plan

The following information is to give the SEHP a benchmark. It will not be used to allow or disallow participation in the health plan:

- **FEIN Number** (Federal Employee Identification Number) For billing purposes only
- **List of all eligible employees and Current enrollment by membership type** (single, single + spouse, single + child(ren) and family)
- **List of active employees who are also eligible for Medicare as well as any COBRA participants.**

## Waiting period for new groups

The standard timeframe SEHP prefers to be given is 90 days' notice from when a group would wish to be effective on benefits. Circumstances may prohibit that length of time from being possible and it may be possible to shorten the turnaround time between when a contract is executed between SEHP and a group and the group's effective date. We do require a letter of intent to be issued to SEHP reflecting the date of coverage agreed upon. Any exceptions to the 90 day waiting period would be done on a case by case basis.

# Underwriting

The following requirements of the Plan are the rules of the program to insure the best possible “spread of risk” and avoid adverse selection in order to achieve a reasonable premium for the health benefits offered.
