*\*Please note that numbers below 5 are suppressed. Also note that numbers may slightly differ from previous years due to recent change in reporting hospital discharges.*

- In Sedgwick County, during the period of 9 years (1999-2007), 640 hospital discharges were due to unintentional injuries among children and adolescents ages 0-14 years.
- Out of the 640 hospital discharges due to unintentional injuries among 0-14 years old, 3% of hospital discharges were among children <1 years, 36% among children 1-4 years, 25% among 5-9 years and 36% among 10-14 years.
- About 39% of the total unintentional injury hospital discharges were due to motor traffic accidents. About 40% of unintentional injuries due to motor vehicle traffic accident occurred among 10-14 years old and 28% of these occurred among 1-4 years
- About 26% of the total unintentional injury hospital discharges among 10-14 years were due to poisoning and another 15% were due to struck by/against.
- The hospital discharge data showed a need of injury prevention efforts.
