

VFC Vaccine Ordering in KSWebIZ

Our Mission: To protect and improve the health and environment of all Kansans.

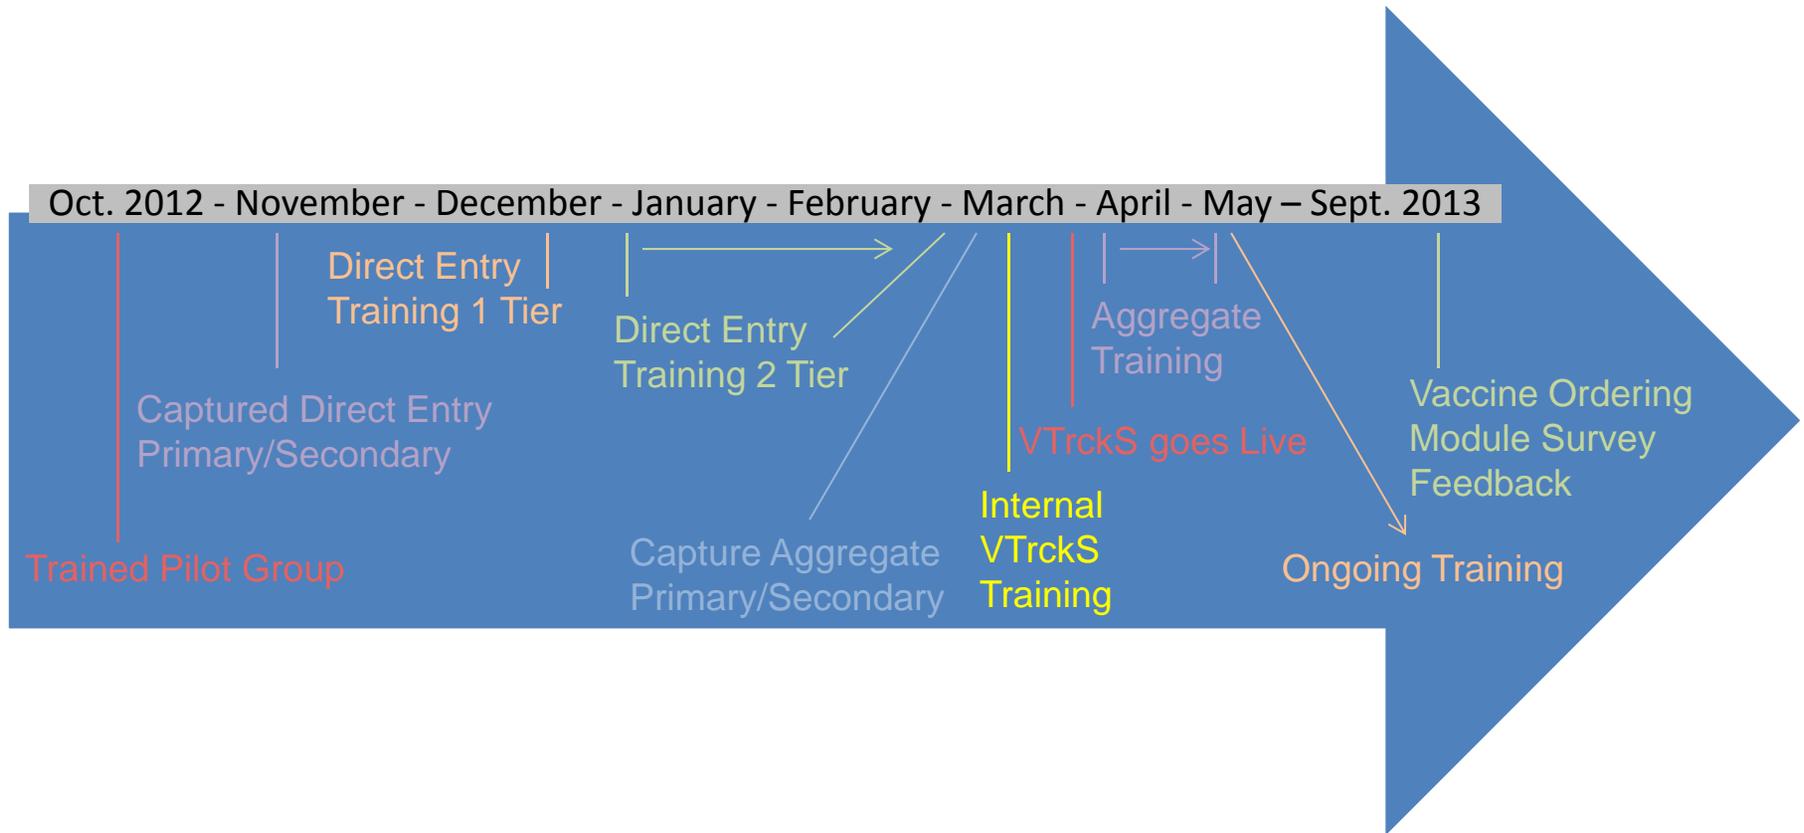

Objectives

- **An Overview/Timeline**
- **Define Aggregate vs. Direct Entry Users**
- **Discuss the 4 Required Validations**
- **Survey Feedback**
- **Brief Process Flow within KSWebIZ**
- **Questions**

Our Mission: To protect and improve the health and environment of all Kansans.

An Overview/Timeline

Our Mission: To protect and improve the health and environment of all Kansans.

Aggregate vs. Direct Entry

Aggregate

- An aggregate user is someone who's provider office may or may not have access to the immunization data in KSWEBIZ, and if they do have access to the KSWEBIZ data this means that the immunization program they use at their office to enter immunization data connects to KSWEBIZ behind the scenes through what we call an interface, using the internet to send and receive immunization data through a secure internet connection.

Our Mission: To protect and improve the health and environment of all Kansans.

Aggregate vs. Direct Entry

Direct Entry

- **A direct user is someone who's provider office has access to and utilizes all of the features of KSWEBIZ and administers (enters) all of their immunization data directly into the KSWEBIZ web based program.**

Our Mission: To protect and improve the health and environment of all Kansans.

4 Required Validations

Applies to All VFC Providers

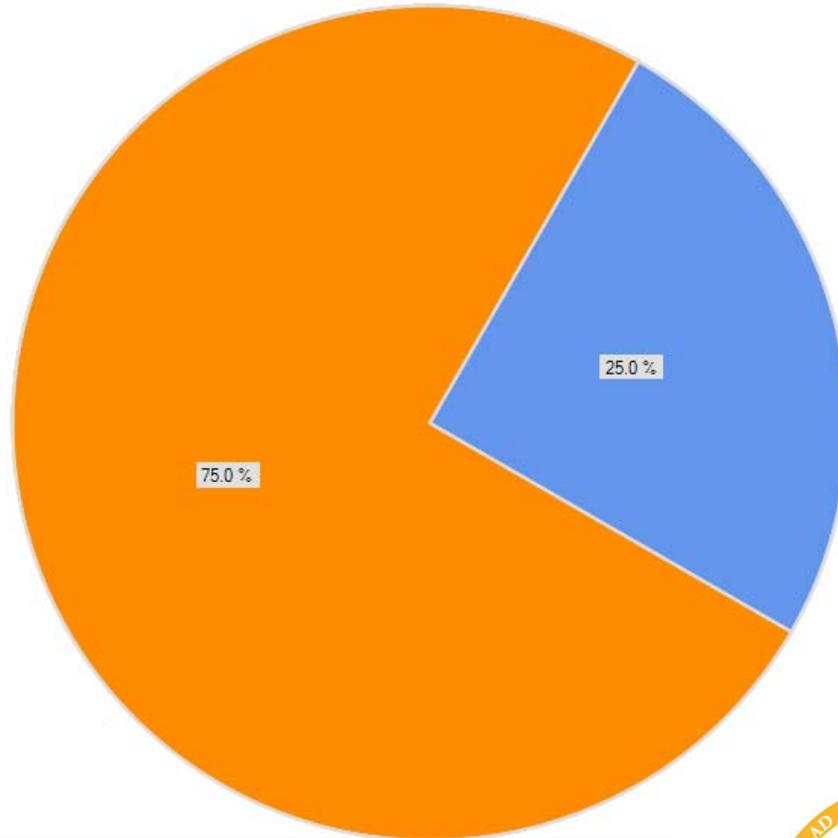

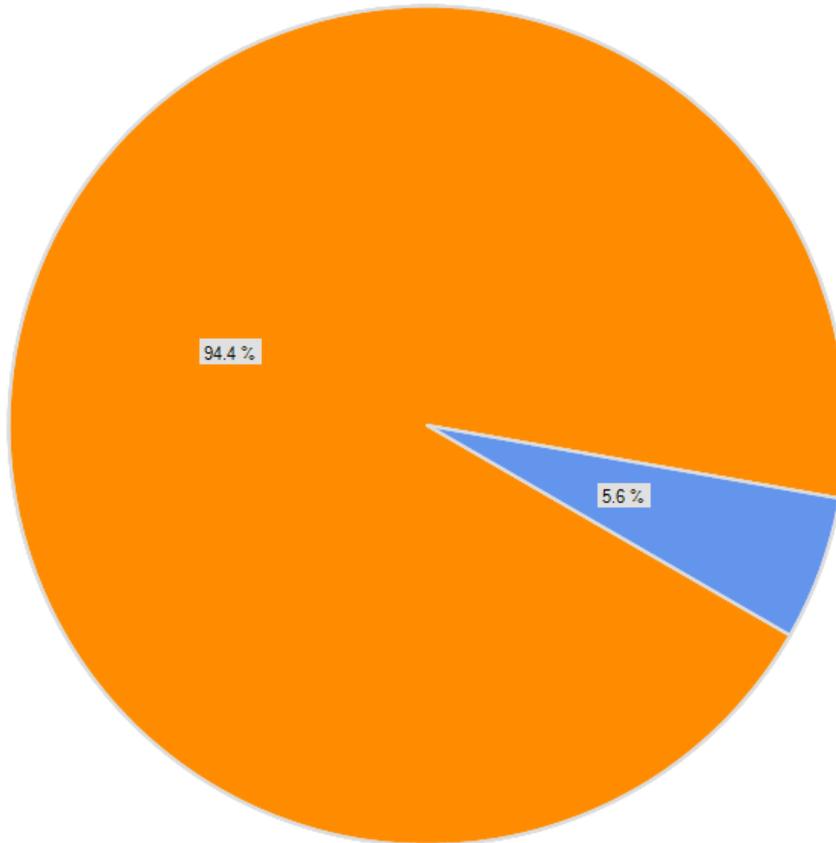

- 1) MIRs will need to be closed within **7** days of the **End Date (Physical Count)**.
- 2) Vaccine Orders will need to be submitted within **7** days of the **End Date** of the MIR.
- 3) An approved Temp Log must be submitted within one month of the vaccine order date. (Temp logs are still due at the beginning of each month).
- 4) Vaccine Orders must meet the minimum days between orders as determined by the Provider EOQ Tier.

Survey Feedback

Has the Vaccine Ordering module been easy to use?

- Direct Entry Users

- Aggregate Users

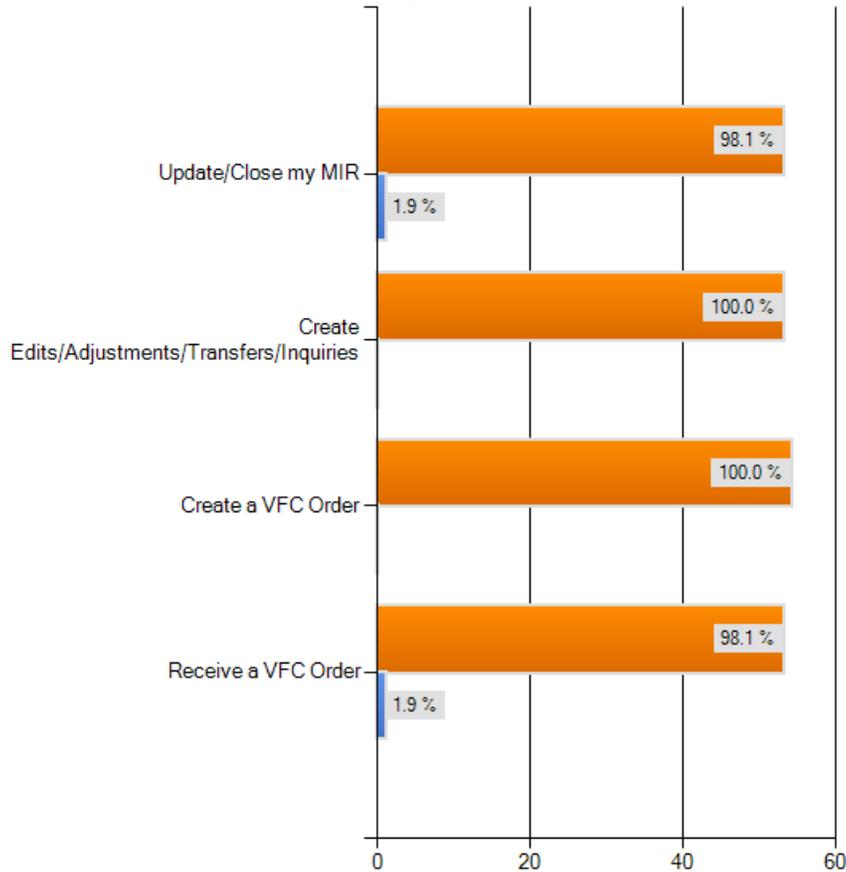

Yes
No

**Our Mission: To protect and improve
the health and environment of all
Kansans.**

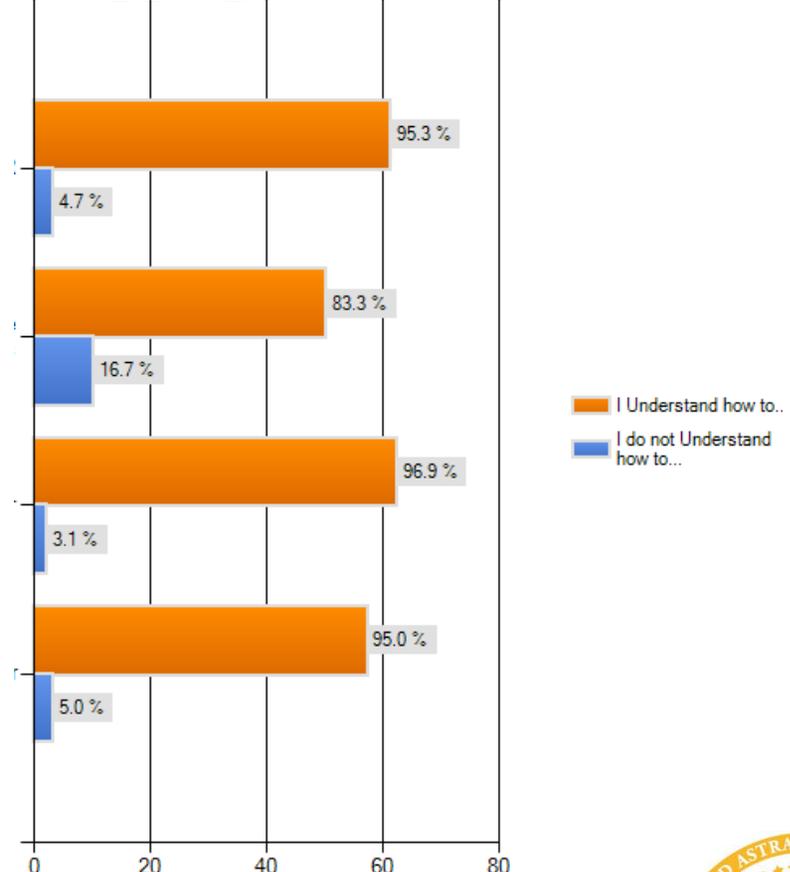

Survey Feedback

Please describe your understanding of the below categories:

- Direct Entry Users

- Aggregate Users

**Our Mission: To protect and improve
the health and environment of all
Kansans.**

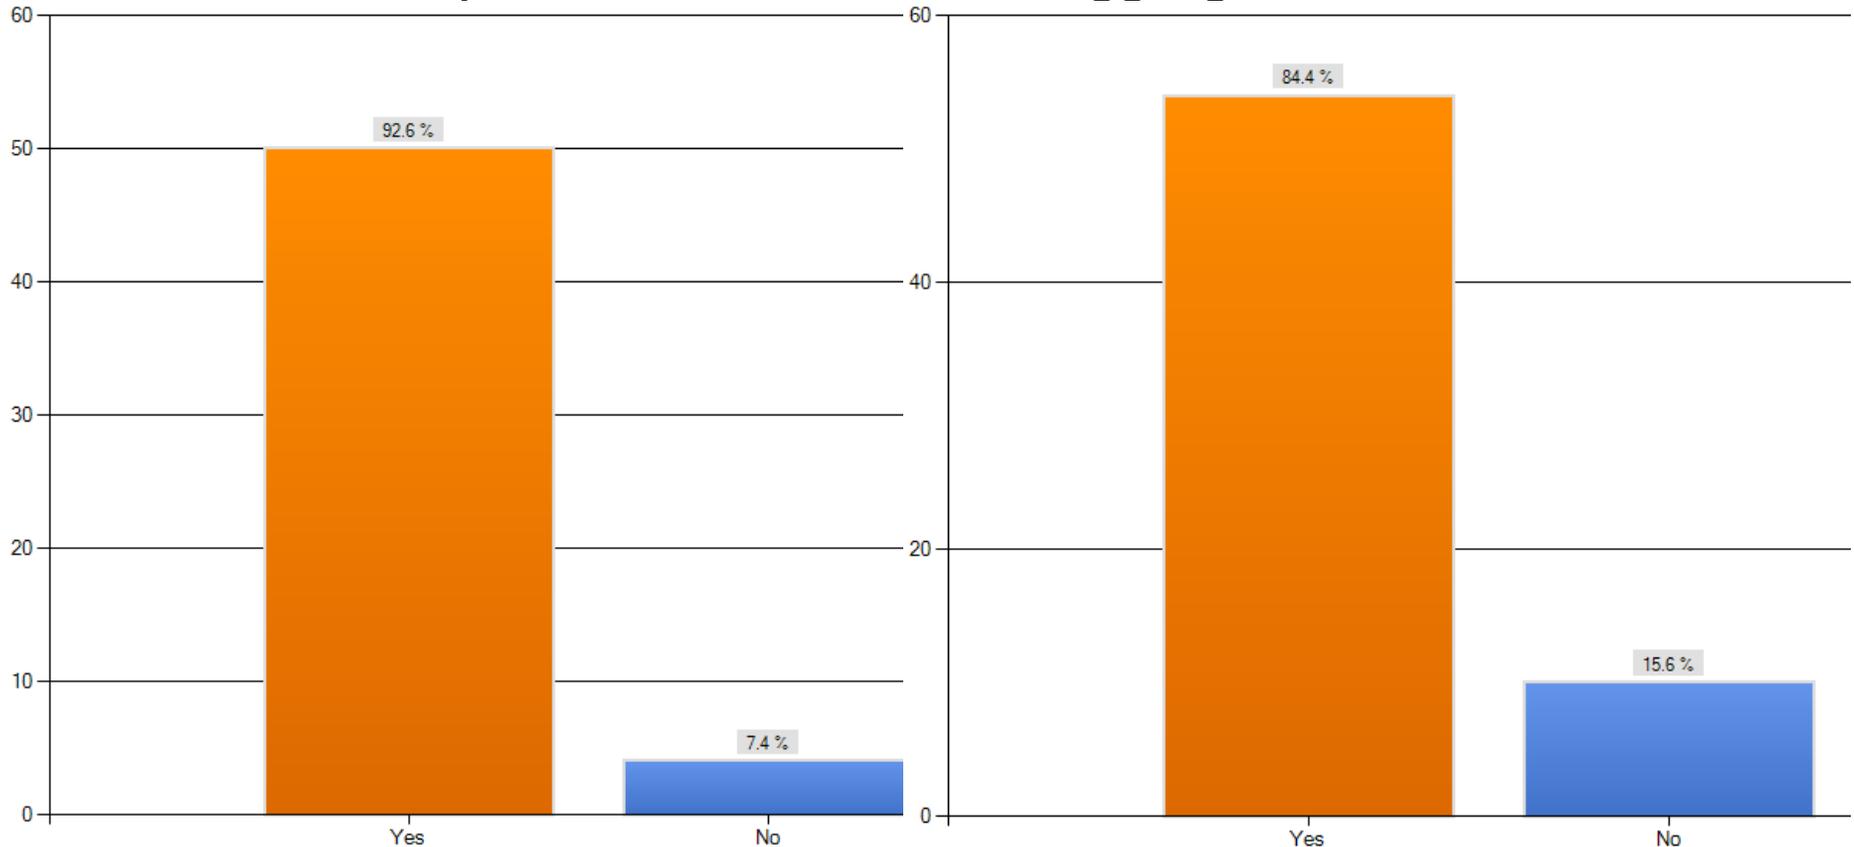

Survey Feedback

Are you receiving your VFC Orders within one week?

• Direct Entry Users

• Aggregate Users

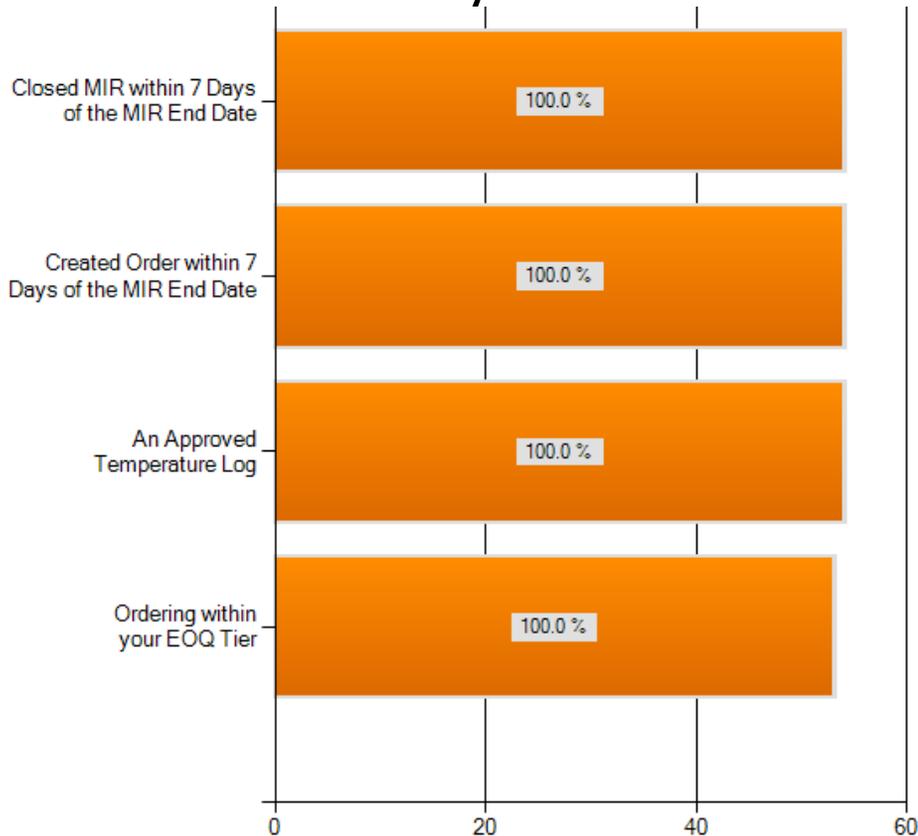

**Our Mission: To protect and improve
the health and environment of all
Kansans.**

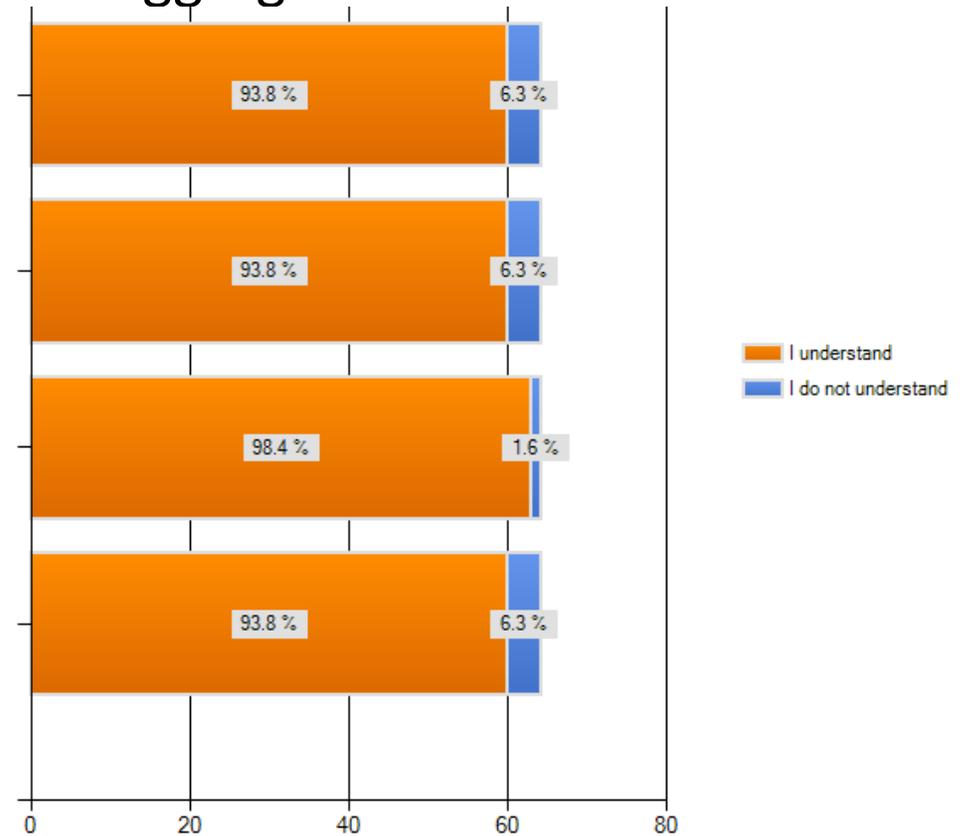

Survey Feedback

What is your understanding of the 4 Validations that have to be met in order to create a VFC Order?

- Direct Entry Users

- Aggregate Users

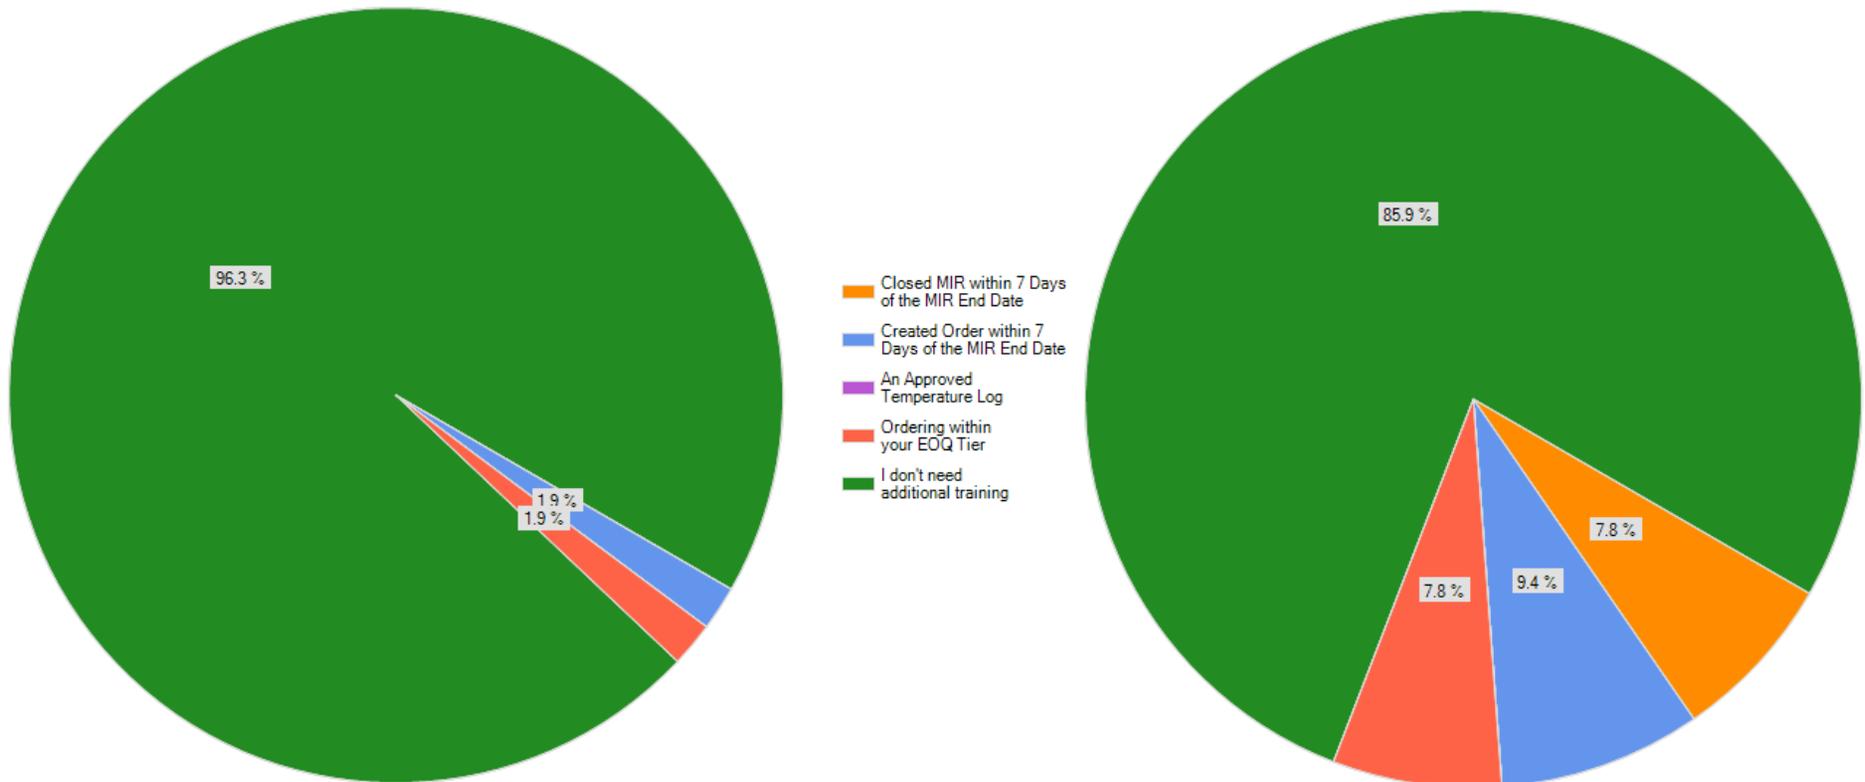

Our Mission: To protect and improve the health and environment of all Kansans.

Survey Feedback

If additional training is needed on the 4 validations, please check all that apply:

- Direct Entry Users
- Aggregate Users

**Our Mission: To protect and improve
the health and environment of all
Kansans.**
