

IMMUNIZE

Involve every staff member in your practice and every health worker in your community.

Medical home for every child.

Measure the immunization rates – practice and community.

Use reminder/recall systems.

Never miss an opportunity to immunize.

Immunization status – check at every encounter.

Zap! Zap! Zap!
Give patients all vaccines for which they are eligible.

Educate! Educate! Educate!
Know your vaccine schedules and valid contraindications.
