

## Data Logger User Agreement

Provider Name: \_\_\_\_\_

VFC Pin #: \_\_\_\_\_

The Centers for Diseases Control (CDC) Vaccines for Children (VFC) program requires twice daily monitoring and recording of refrigerator and freezer temperatures, and monthly reporting of those readings to the Kansas Immunization Program (KIP).

Data loggers collect vaccine storage unit temperature data 24 hours a day, 7 days a week. Data loggers allow for improved temperature accountability and will assist in decreasing the amount of wasted VFC vaccine due to unknown storage unit temperatures.

This Provider User Agreement describes the terms and conditions for use of the program supplied data logger.

KIP shall:

1. Provide a maximum of two (2) TempTale®4 USB Multi-Alarm Monitors (data loggers) per calibration period. Calibration period is typically for one year from the date of shipment and is found on the calibration certificate of each monitor.
2. Educate Provider on installation and use of the data logger.
3. Assist Provider with ongoing education and use of the data loggers.

Provider shall:

1. Install datalogger software, complete training, and use data loggers as directed by Sensitech and KIP.
2. Use KIP supplied datalogger as the primary certified calibrated thermometer. Not to be used as backup thermometer.
3. Keep datalogger certificate of calibration in clinic file
4. Record refrigerator or freezer temperature twice daily on paper temperature logs and maintain the paper logs for three (3) years as stipulated by the CDC.
5. Monthly download temperature data by the 10<sup>th</sup> of the following month.
6. Immediately download temperature data when alarm icon is displayed. Quarantine vaccine until out of range temperatures are evaluated.
7. Note that by not monitoring datalogger temperatures the provider will be subject to corrective action or disenrollment if provider has not submitted to KIP a calibration certificate for use of another primary temperature monitoring system.
8. Maintain data loggers in a manner to prevent damage, theft or destruction.
9. Replace damaged, destroyed, or stolen data loggers at a cost of \$100.00 each.
