

Kansas System for the Early Registration of Volunteers K-SERV

“BE THE RESPONSE”

“It is the goal of K-SERV to engage volunteers in local emergency service. I encourage Kansans, those medically trained or not, who are eager to support their communities in the event of a disaster to register with this database and participate in the local preparedness activities.”– Robert Moser, M.D., KDHE Secretary and State Health Officer

To Enroll in K-SERV: Send an email to kservadmin@kdheks.gov

WHAT IS K-SERV?

The Kansas System for the Early Registration of Volunteers is a statewide secure database of pre-credentialed health care and non-health care professionals who are interested in volunteering their services in the event of a public health emergency. K-SERV is a tool that can be used by Kansas communities for volunteer management in the case of a disaster or incident.

HOW DOES K-SERV WORK?

Once you have registered to become a K-SERV volunteer, your professional credentials will be verified and your information will become part of the K-SERV statewide secured database. In the event of a disaster, you will be contacted by a local volunteer coordinator to see if you are interested in volunteering. Registration in K-SERV does not obligate you to participate in the response.

TIPS FOR REGISTRATION

Registration only takes about 10 to 15 minutes. Here are some tips to make the registration time go even faster:

- ✔ If you are a licensed professional, have your license number and expiration date handy
- ✔ If you have undergone any relevant trainings, have the name and date of the trainings ready
- ✔ Start thinking about your deployment needs
 - ✔ How far are you willing to travel?
 - ✔ How long do you want to be gone?
 - ✔ Are you willing to deploy throughout the U.S.?
 - ✔ What kind of incident do you want to respond to?
- ✔ Get relevant demographic, personal and contact information in order

BE THE RESPONSE.
