Interpreting Processes for

KanCare provides Medicaid and SCHIP (State Children's Health Insurance Program) through three Managed Care Organizations (MCOs). They are Amerigroup, Sunflower State Health Plan, and United HealthCare. KanCare offers interpreting services at medical and dental appointments for its members through either an interpreter in-person or over the phone. It does not reimburse providers directly for interpretation. Each MCO has a slightly different protocol for providers who are requesting an interpreter for their patients. Basic information about how to access an interpreter can be found online at http://www.kancare.ks.gov/health_plan_info.htm with a link to each MCO's website.

If you would be interested in receiving the document provided by one of our partners that outlines the process for accessing interpreting services through KanCare, please email Sarah Beery at sbeery@kdheks.gov. In order to ease the management of these emails, please type "KanCare Interpreting Document" in the subject line of the email.

Notice new contact information, effective October 1, 2013!
