- April 5, 2017 – Olathe
- April 6, 2017 – Abilene

- May 23, 2017 – McPherson
- May 24, 2017 – Emporia

LEAD & COPPER RULE (LCR) / RTCR WORKSHOP

LEAD & COPPER RULE (LCR) / RTCR WORKSHOP

LCR – ALL COMMUNITY WATER SYSTEMS AND NON-TRANSIENT, NON-COMMUNITY WATER SYSTEMS ARE REQUIRED TO MONITOR FOR LEAD AND COPPER!

Due to recent events regarding lead and copper in drinking water throughout the United States, there has been an increased focus on the implementation of the LCR. KDHE has reevaluated different aspects of the lead and copper monitoring in Kansas to ensure that the LCR is being properly implemented and enforced so that public health and safety can be protected. This training workshop will discuss the following KDHE protocols and procedures that will be fully enforced in all future lead and copper monitoring practices: Monitoring Sample Site Plan Requirements, Evaluation, Sampling Protocol and Instructions, Sample Collection, Consumer Notification of Results, Action Level Exceedance, and Corrosion Control Requirements.

RTCR - APPLIES TO ALL PUBLIC WATER SYSTEMS - COMMUNITY AND NON-COMMUNITY AND ANY SIZE POPULATION SERVED!

The "Find and Fix" approach is underway for Kansas systems as part of the Revised Total Coliform Rule. The training workshop will discuss the requirements of the rule that went into effect on April 1, 2016. The following items will also be reviewed: Sample Site Plan, sample locations, and sample locations.

PRESENTERS

KDHE Staff, KMU Staff, KSAWWA Members, and Industry Subject Experts

WHO SHOULD ATTEND?

Water Treatment Plant Operators, Distribution Operators, Superintendents, Supervisors, Managers, Administrators, Elected Officials, and others that are interested in water system operations and treatment.

OPERATOR CREDIT

These training workshops have been approved by Kansas Department of Health & Environment, Operator Certification Program, for five (5) water operators' continuing education training hours for full-day attendance.

AGENDA

Registration for each workshop will begin at 8:30 AM with the workshop introductions and announcements beginning at 9 AM. Lunch will be on your own and the workshops will conclude at 4 PM.

WORKSHOP DATES & LOCATIONS

Registration at 8:30 AM. Training begins at 9 AM.
