

Community Advisory Council: Members Wanted

Advocates Wanted!

We are creating an organization where the people who are impacted by HIV-related healthcare and STI/HIV prevention services can share their ideas and experiences directly with the people and agencies that provide them. Members of this committee will be able to vote on recommendations that will guide the decisions affecting how these services are offered across Kansas.

Becoming involved allows you to:

- ✓ Express concerns with healthcare or other services
- ✓ Share ideas on how to improve services
- ✓ Share your experiences and opinions
- ✓ Make sure decision-makers know how you are affected
- ✓ Learn about updates and new opportunities
- ✓ Be your own representative

If you would like to become a member, or have any questions, please call or email:
