TANK CLEANING, REPAIR, LINING, TESTING AND INSPECTION AFFIDAVIT

I, _______________________________, the undersigned, hereby swear and attest that all work performed on the above designated tank was in accordance with API Standard 1631 as follows:

1. The tank met the structural qualifications and repair criteria (if repaired) of EPA and API Standard 1631.
2. The entire interior of the tank was blast cleaned to a near-white metal finish in accordance with the requirements of API Standard 1631 and 90 psi minimum air pressure was maintained at the blast nozzle and compressor during abrasive blasting.
3. The lining was holiday tested and determined to be free of holidays in accordance with the requirements of API Standard 1631.
4. The Barcol hardness of the tank lining met the lining manufacturer’s Barcol hardness specifications and testing was performed in accordance with the requirements of API Standard 1631.
5. The final lining had a nominal thickness of 125 mils and a minimum thickness of no less than 100 mils as determined in accordance with the requirements of API Standard 1631.

TANK OWNER'S VERIFICATION

By signing below, the tank owner or owner’s designated agent attests and verifies that this Affidavit has been completed with all required signatures and acknowledges receipt of this affidavit. Owner may send a copy of this Affidavit to the lining material manufacturer for authentication and shall maintain the original signed Affidavit as part of the owner’s permanent tank records. Under applicable state, local and U.S. federal laws and regulations it is the tank owner’s responsibility to determine that the tank meets the requirements for valid upgrade and to maintain records that demonstrate that the tank is in compliance with regulatory and API Standard 1631 requirements.
