There is no change in the permitted animal units from the previous permit. An approved Nutrient Management Plan for the facility is on file with KDHE.

Public Notice No. KS-NQ-12-006

The requirements of the draft permits public noticed below are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-f):

Name and Address of Applicant	Legal Location	Type of Discharge
Unified School District #310 16115 S. Langdon Road Langton, KS 67583	SW¼, S16, T25S, R9W, Reno County, KS	Nonoverflowing

Kansas Permit No. M-AR54-NO01 Federal Tracking No. KSJ000660

Facility Name: Fairfield High School

Facility Description: This action consists of issuing a new Kansas Water Pollution Control Permit for a new facility. Discharge of wastewater from this treatment facility to surface waters of the state of Kansas is prohibited by this permit. Included in this permit is a schedule of compliance requiring the permittee to obtain the services of a KDHE-certified wastewater treatment plant operator to achieve compliance with this permit.

Public Notice No. KS-EG-12-004

In accordance with K.A.R. 28-46-7 and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, draft permits have been prepared for the use of the well(s) described below within the state of Kansas:

Name and Address of Applicant
Northern Natural Gas Company (NNG)
1111 S. 103rd St.
Omaha, NE 68124-1000

Facility Location: Cunningham, Kansas

Well & Permit Number	Location	Latitude / Longitude
#WIW #1 / KS-05-151-001	NW/4, S1, T27S, R11W, Pratt County	37.732257/-98.4784462

#WIW #2 / KS-05-151-002	SW/4, S26, T26S, R11W, Pratt County	37.75147191/-98.50108340
#WIW #3 / KS-05-151-003	SE/4, S23, T26S, R11W, Pratt County	37.76572/-98.483733

Facility Description: The proposed action is to issue three new Class V Brine Injection Well Permits. Brine produced from the Arbuckle Formation will be injected for the purpose of stabilizing the pressure in the Viola Formation to prevent the migration of storage gas. Injection will be by gravity flow. Injection is to be made into the Viola Formation from a depth of approximately 4,293 feet to a top depth of approximately 4,285 feet below ground surface. The maximum rate of injection to these disposal wells is 168,000 gallons per day per well. All construction, monitoring and operation of these wells will meet the requirements that apply to Class V injection wells under the Kansas UIC regulations, K.A.R. 28-46-1 through 28-46-44, and other requirements of KDHE.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before May 12 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-12-098/102, KS-NQ-12-006, KS-EG-12-004) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m. Monday through Friday, excluding holidays.

Robert Moser, M.D.
Secretary of Health
and Environment
