

**KDHE SFY2013 Waste Tire Grant Program  
Manufacturer/Product Application for Eligibility**

The State of Kansas Bureau of Waste Management is again offering a waste tire grant for purchasing tire-derived products. BOTH the **products and distributors** must be pre-approved by the BWM grant manager.

- **A list of approved products and distributors/vendors is published prior to the grant application period.**
- **The Manufacturer or original supplier must submit a product sample, certifications and warranties for each product; (FOR PLAYGROUND SURFACING ONLY) a copy of ASTM 1292 test results; (Product samples, copies of test results and certifications submitted last year will be considered valid for this year – please DO NOT send new documentation if there are no changes)**
- **The manufacturer is also asked to submit a separate report of the tire shipments received from Kansas during the last two years (2011, 2012). Reports must include quantity, the date tires were received, who they came from, and a short statement of how these tires are used in the product. The State of Kansas does require a license for tire haulers. You may resend correspondence from prior year's shipments with your endorsement along with updated information for the current year.**
- **For products to be eligible for reimbursement with grant funds the Products must be placed on the approved list prior to the grant announcement. (Don't delay!)**

**GENERAL INFORMATION**

1. The SFY 2013 Kansas waste tire grants will be announced December 1, 2012. This program will encourage the purchase of playground cover material and other waste tire-derived products produced from Kansas waste tires.
2. Products for playground surfaces must be tested to ASTM 1292-04 (Head Impact - critical fall height) The manufacturer or original supplier must submit a copy of the most recent ASTM 1292 test results along with a product sample that matches the product tested.
3. Materials and Installation of Playground Surfacing should conform to Consumer Product Safety Commission guidelines for Public Playground Safety (Publication 325). Note: The CPSC currently recommends a minimum of 6" of crumb rubber for a ten foot fall height.
4. Products for playground surfaces that meet the ADA recommendations will be given preference over products/projects that do not. Playground Surfaces must also be tested to ASTM F1951 to claim ADA accessibility. (Standard Specification for Determination of Accessibility to Surface Systems under and Around Playground Equipment.) – THEY DO NOT HAVE TO PASS TO BE ELIGIBLE.
5. The product supplier will be responsible for any installation training or guidance.
6. **Copies of current warranties, specifications and certifications applying to the functionality, coating, color, wire-free status, etc. are to be filed with the KDHE Waste Management Grants Program along with this application.**
7. Waste tire derived products composed of multiple materials must be no less than 50% waste tire material by weight, unless composed of other recycled material. **Partial funding may be available for products with tire content less than 50%.**

## KDHE SFY2012 Waste Tire Grant Program

8. **IMPORTANT\*\*** A certification statement will be required after installation for **all playground surface material** before final payment of grant funds. **The statement certifies that the product is the same as the named product on the approved list, and that it was installed according to manufacturer’s guidelines and to fall height standards.** The grant applicant must include a name of the person on the application that meets the qualifications of a quality officer who can make this statement. *This person may be a representative of the manufacturer of the product*, or may have been “trained” by the distributor, or be a licensed engineer, architect, or playground safety inspector. **Supplying a product that was not on the pre-approved list and of an inferior grade may result in being removed from the approved listing in future grant rounds**
  
9. **Quotes:** All applications for a grant must be accompanied by a quote. Please send a written quote to the potential grantee. Use an “official” form or letterhead; include specific product information and name, price, weight or number, and coverage. (Sq. ft. @ \_xx\_depth)

**Send documentation attn:** Kris Hicks, 1000 SW Jackson St., Suite 320, Topeka, KS 66612. [Khicks@kdheks.gov](mailto:Khicks@kdheks.gov) (785) 296-1026 (ph) (785) 296-1592 (fax)
