

**Kansas Department of Health and Environment
Bureau of Waste Management**

**2012 Waste Tire Management Grant
Registered Products and Vendor list**

KDHE staff compiled this list of products based on a successful registration by the applicant and determination of Kansas tires at the manufacturing site. We do not guarantee the quality of any of the products listed here, but we do maintain samples, tests and specifications as submitted by the company. Please request samples, and use your own discretion when choosing a product to purchase.

*When selecting a playground surfacing product, please verify that: **1) it qualifies for a playground surface in this grant by having a valid ASTM 1292 test on file with KDHE** (noted as playground material in the listing.) **2) it meets the fall height criteria for your equipment.***

*When selecting a playground surfacing product that is advertised as accessible, please verify that: **1) it qualifies for a playground surface in this grant by having a valid ASTM 1292 test on file with KDHE** (noted as playground material in the list.) **2) it qualifies as accessible by having a valid ASTM1951 test on file with KDHE.***

Any changes to your product selection after the award has been granted must be approved by the KDHE Bureau of Waste Management grant program. Making changes without approval may result in the loss of funding.

The manufacturers are listed alphabetically and by “made in Kansas” or “made out of state with Kansas tires.”

All the registered products under each manufacturer have been given a “code” by KDHE. Please use the code and have a quote from the vendor on official form or letterhead identifying the approved vendor and stating both the weight and the coverage of the rubber product.

All of the distributors of those products are listed as a business card under the product listing. There may be more than one registered distributor for each product. If a distributor is not listed, they cannot be used in your grant application or purchase.

MANUFACTURER

Product “Made in Kansas”

CODE Trade name (description)(playground qualified)

Approved distributors are listed as a business card.

CENTRAL AMERICAN TIRE SALVAGE CO., INC. (Catsco) of Kansas City, KS.

Playground surfacing “Made in Kansas”

Code

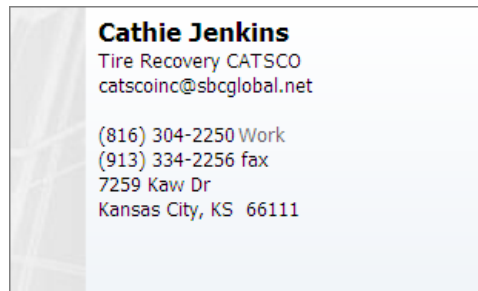

CAT1 KPlaySafe (black playground loose fill)

Landscaping mulch “Made in Kansas”

Code

CAT2 ½” Black Rubber (landscaping)

This is the first and only facility in Kansas who has installed the equipment to process and package an ASTM tested loose fill playground product.
