I, _____, the property owner, agree to allow this property to be used for this disposal purpose.

Application shall be made by the local governmental authority having jurisdiction over the area.

Disposal of Solid Waste Resulting from Natural Disasters

Page 2

The local governmental authority agrees to the following:

1. A site cleanup and closure plan shall be developed and submitted to the department for approval. No additional waste may be brought to the site following the date specified in the department's approval, unless a subsequent request for time extension is approved.
2. The disposal area must be covered with a minimum of two feet of soil and seeded, rocked, or paved.
3. The local governmental authority shall provide for post-closure maintenance of the area.
4. A restrictive covenant shall be submitted and filed as described at the bottom of this page.

Signature of the Local Governmental Authority taking responsibility for the site:

Name _____

Position/Title _____

Signature _____ Date _____

(this section to be completed by local governmental or zoning authority having jurisdiction over the disposal site)

Approved by _____ Date _____
(local governmental or zoning authority)

Name _____ Position/Title _____
(printed)

Signature _____

Once completed, return pages 1 and 2 to KDHE-Bureau of Waste Management. The applicant shall not commence disposal activities unless/until written approval is issued from KDHE-Bureau of Waste Management.

The applicant shall submit a draft restrictive covenant for the area where waste will be disposed. A restrictive covenant form is available on the Bureau of Waste Management web site. If KDHE authorizes the requested disposal, the property owner shall be required to file the approved restricted covenant with the County Register of Deeds within 14 days following completion of the disposal, and a copy of the filed restrictive covenant shall be submitted to KDHE within 30 days of filing. The requirement for a restrictive covenant may be waived by KDHE for small quantities of waste that will not significantly limit future land uses.
