

Test Facility (116832)
Closed Permitted LF Cap

FACILITY INFO	Answer	Violation
1. Is vegetation at a reasonable height and/or has the site been regularly mowed or hayed as needed?		
2. Are trees and noxious weeds treated or removed to prevent them from growing?		
3. Is water prevented from ponding?		
4. Is the site clear of large animal burrows?		
5. Is all waste covered so that none is exposed?		
6. If monitoring wells or drinking water wells are observed or otherwise noted on-site, please describe the number, condition, and use and other pertinent information.
