

Kansas Department of Health and Environment
Bureau of Waste Management Policy 08-02

Related to

**Solid Waste Management Planning
Committee Member Information Requirements**
Effective July 11, 2008

Purpose

This policy allows solid waste planning regions/counties to determine whether they provide addresses and phone numbers for Solid Waste Management (SWM) Committee members in their Solid Waste Management Plan (SWMP).

Background

SWM Committee members are required by K.A.R. 28-29-76 (a) to submit their name; political entity, business affiliation or organization that the member represents; address; and telephone number. The opinion of some SWM Committee members is that personal information should remain confidential and not be readily available to members of the public. Therefore, they have requested that their addresses and phone numbers remain confidential by eliminating the requirement to include this information with the SWMP 5-year updates and annual reviews.

Action

The Bureau of Waste Management recognizes that this information has limited usefulness and will amend this regulation to eliminate the requirement of including SWM Committee members' addresses and phone numbers in the SWMP. Upon request by the SWM Committee chairperson, addresses and phone numbers will be omitted from the SWMP.

William L. Bider
Director, Bureau of Waste Management
