RE: Updated Part B Permit Application Supplemental Information for SWMUs 23-26  
Koch Nitrogen Company, Dodge City, KS  
EPA I.D. #KSD 044625010

Dear Mr. Spellman:

On September 27, 2004, the U.S. Environmental Protection Agency, Region 7, received Koch Nitrogen Company's (Koch's) supplemental information to the May 4, 2004, updated Part B Permit Application for Solid Waste Management Units (SWMUs) 23-26.

According to the regulations found at 40 CFR 270.14(d)(1), the Facility is required to provide certain information for each SWMU at its facility. Koch's May 4, 2004, updated Part B Permit Application did not include some of the required information for the referenced SWMUs. On May 21, 2004, EPA requested that Koch supply the missing information.

EPA has reviewed the supplemental information dated September 27, 2004, and finds that it meets the requirements of 40 CFR 270.14 (d)(1). EPA is therefore approving the supplemental information.

If you have any questions regarding this letter, please contact me at (913) 551-7662.

Sincerely,

Andrea R. Stone  
Environmental Scientist  
RCRA Corrective Action & Permits Branch
