Subject Agenda for meeting on Friday, August 26, and List of
Concerns/Issues

AnnieLaurie:

I have reviewed Koch's proposed Agenda and offer the following suggestions/changes/additions:

2.1. Identify Areas of Agreement/Disagreement - This may not be possible since EPA and KDHE are not finished with our detailed review of the FSP and QAPP. We are in the process of developing detailed comments. Therefore, since our review is not complete, we may not be able to come to agreement on the items we agree/disagree on.

I would like to add a subsection under Agenda Item #2

2.2 Define EPA Expectations:

- A. Discussion of defining the vertical and horizontal extent of contamination
- B. Discussion on the Scope of Work for the RFI Work Plan contained in the Part II of the Permit

Subsection 2.3 Optimize Communication - What exactly does Koch mean by this?

List of EPA Concerns:

1. Groundwater Investigation
2. Soil investigation
3. Analytical methods proposed (SPLP and not Totals);
4. Using 20 times the SPLP result to determine list of analytes to sample for;
5. Focusing on Risk instead of defining the vertical and horizontal extent of contamination;
