Description						

Andrea,

How about a conference call at 9:00 a.m. on Wednesday, August 24, 2005. Will this work for you? You may call us at 785-296-0940.

Also, I did some digging concerning your question about the sludge from the Electrochemical Treatment Unit. Our files indicate Farmland made two requests to dispose of the sludge in an on-site landfill, but both requests were denied. To my knowledge, the sludge is still there. Some of the documentation (October 2000 letter) is located in Appendix J of Koch's Draft RFI and Appendix N of Koch's revised RFI. Give me a call if you have any other questions.u
