**Re: Class 1a Permit Modification- Name Change from KNC to KNCLLC
Koch Nitrogen, LLC, Dodge City
EPA ID# KSD044625010**

Dear Ms. Sahatjian:

The Kansas Department of Health and Environment (KDHE) received your December 12, 2008 letter requesting approval of a name change of the Dodge City facility due to a merger of Koch Nitrogen Company, a Nebraska corporation into Koch Nitrogen Company, LLC, a Delaware corporation. To support this request, you also submitted an incomplete Business Concern Disclosure Statement (BCDS) Form I, denoting that the outstanding information will be provided following the merger or no later than February 27, 2009.

In accordance with 40 CFR 270.42, this request will be addressed as a Class 1a permit modification, but cannot be completed until KDHE has received all required information. Besides the pending BCDS information, you must also submit a revised Part A application to reflect the above change in ownership and/or operational control. Due to the minor textual change, KDHE will not require you to submit replacement pages for the approved Part B application.

Based on a review of the information submitted to date, KDHE plans to approve this permit modification request. Should you have any questions with respect to background investigation and financial assurance, please contact Brian Busby at (785) 296-0680. Questions or concerns about the permit modification process may be addressed to me, via e-mail at mkamal@kdhe.state.ks.us or by phone at (785) 296-1609.

Sincerely,

Mostafa Kamal, PE, CPM
