**Subject:** CDU Part A Application Process Code

Elise,

In my May 12, 2010 email message I requested that Koch Nitrogen Company list the Chrome Destruct Unit (CDU) as a Landfill in item number 8 on page 6 of the Hazardous Waste Permit Information Form using D80 as a process code. After our phone conversation yesterday, I noted that the process code recorded in the RCRAInfo database is T04. Although the D80 process code is more applicable, changing the entries in RCRAInfo may cause problems with reports generated by EPA Headquarters. Therefore, to be consistent with previous data entries, you may list the unit status using the T04 code on the Part A application Form instead of the D80 code. Please contact me if you have any additional questions.
