

**Kansas Register Notice**  
**State of Kansas**  
**Department of Health and Environment**  
**Public Notice of Remediation Work Plan**

The Kansas Department of Health and Environment (KDHE) received a Remediation Work Plan from the City of Lawrence for the former Farmland Industries Nitrogen Plant. The facility is located at 1608 N. 1400 Road, Lawrence, Kansas and has EPA identification number KSD007128507.

KDHE is providing notice of its intent to approve a RCRA CRS Unit Remediation Work Plan for the facility. The proposed work plan outlines soil remediation work that will be completed to address the excavation, remediation and replacement of low pH soils and materials underlying the location of the CRS unit. The work plan includes neutralizing the low pH soils in an effort to raise the pH of the groundwater. The plan also includes the installation of replacement wells to monitor the groundwater after the site work is complete.

State hazardous waste laws require that the public be given at least 45 days to review the work plan prior to KDHE giving a final approval. The purpose of having a public comment period is to ensure that interested parties have the opportunity to evaluate the conditions specified in the work plan and to provide their input into the approval process. A copy of the work plan and fact sheet is available for public review from September 29, 2014 through November 12, 2014, Monday through Friday, during normal business hours at the following locations:

Kansas Department of Health and Environment

Hazardous Waste Permits Section

1000 SW Jackson, Suite 320

Topeka, Kansas 66612

Contact: Mostafa Kamal

Tel: (785) 296-1609

Lawrence Public Library

707 Vermont St

Lawrence, KS 66044

Tel: (785) 843-3833

The Remediation Work Plan and fact sheet can also be accessed on the KDHE website at:  
[http://www.kdheks.gov/waste/p\\_pubnot\\_hw.html](http://www.kdheks.gov/waste/p_pubnot_hw.html)

As specified in 40 CFR 124.11, during the public comment period any interested person may request a public hearing in writing which states the nature of the issues proposed to be raised in a public hearing. In the event that a hearing is scheduled, advance notice of the date will be given to the public.

Robert Moser, M.D., Secretary, Kansas Department of Health and Environment
