Public Notice Concerning Kansas / Federal  
Water Pollution Control Permits and Applications

State of Kansas  
Department of Health and Environment  
Division of Environment-Bureau of Water  
1000 SW Jackson St., Suite 420  
Topeka, Kansas 66612-1367

Telephone: (785) 296-6432 - Ag Permits  
(785) 296-5517 - All Others

Public Notice No. KS-AG-12-001/004  
KS-Q-12-001/004

Beginning Date: January 5, 2012  
Comments Due: February 4, 2012

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 17, 28-18-1 through 33, 28-16-150 through 154, 28-46-7, and the authority vested with the State by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation and reissuance of the designated permit or termination of the designated permit.

All Kansas Department of Health and Environment district office addresses and telephone numbers are listed below.

**Public Notice No. KS-AG-12-001/004**  
**Pending Permits for Confined Feeding Facilities**

<u>Name And Address of Applicant</u>	<u>Legal Description</u>	<u>Receiving Water</u>
Bracken-Cline Farm Michael Springer P.O. Box 10 Sycamore, KS 67363	NE/4 of Section 13 T30S, R14E Wilson County	Verdigris River Basin

Kansas Permit No.: A-VEWL-H002                      Federal Permit No.: KS0091456

This permit is being re-issued for an existing facility for 3,000 head (1,200 animal units) of swine weighing more than 55 pounds and 900 head (90 animal units) of swine weighing 55 pounds or less; for a total capacity of 1,290 animal units. There is no change in the permitted animal units from the previous permit. An approved Nutrient Management Plan for the facility is on file with KDHE.

Southwest Agri Center, Inc.                      NE/4 of Section 24                      Cimarron River Basin

Rock Ormiston  
303 Main  
Kismet, KS 67859

T33S, R31W  
Seward County

Kansas Permit No.: A-CISW-B002

This permit is being re-issued for an existing facility for 500 head (700 animal units) of mature dairy cattle and 295 head (295 animal units) of cattle weighing more than 700 pounds; for a total permitted capacity of 995 animal units. This represents an increase in the permitted capacity from the previous permitted capacity of 699 head (978.6 animal units) of mature dairy cattle.

Chester Schultz  
9285 300 Road  
Neodesha, KS 66757

NW/4 of Section 30  
T30S, R15E  
Wilson County

Verdigris River Basin

Kansas Permit No.: A-VEWL-S022

This permit is being re-issued for an existing swine facility for 500 head (200 animal units) of swine weighing more than 55 pounds and 192 head (19.2 animal units) of swine weighing 55 pounds or less; for a total capacity of 219.2 animal units. There is no change in the permitted animal units from the previous permit.

Stewart Feedyard, Inc.  
Shannon Stewart  
P.O. Box 163  
Tribune, KS 67879

SE/4 of Section 29  
T18S, R39W  
Greeley County

Upper Arkansas  
River Basin

Kansas Permit No.: A-UAGL-B005

This permit is being re-issued for an existing facility with a maximum capacity of 900 head (450 animal units) of cattle 700 pounds or less. There is no change in the permitted animal units from the previous permit cycle.

## **NOTICE OF INTENT TO TERMINATE**

**Pursuant to the requirements of K.A.R. 28-16-60 and K.A.R. 28-16-62, the Kansas Department of Health and Environment (KDHE) hereby provides notice of intent to terminate the following KDHE issued permit.**

<b><u>NAME AND ADDRESS</u></b>	<b><u>FACILITY ADDRESS</u></b>	<b><u>DOCUMENT NO.</u></b>
CAG Cimarron Dairy, L.P. % Jack Koopman 6306 20 Road Cimarron, KS 67835	6306 20 Road Cimarron, KS 67835	A-UAGY-D002 KS0091120

The Kansas Department of Health and Environment (KDHE) issued Kansas Water Pollution Control Permit for Agricultural and Related Wastes and Authorization to Discharge under the National Pollutant Discharge Elimination System A-UAGY-D002/KS0091120 to CAG Cimarron Dairy, L.P., Jack Koopman

Kansas Permit No. I-LR05-PO02

Federal Permit No. KS0093351

Legal Description: NE¼, SW¼, S8, T8S, R3E, Clay County, KS

Facility Name: Clay Center Groundwater Remediation Project PWS #2

Facility Location: 8<sup>th</sup> & McBrathney Streets, Clay Center, KS 67432

Facility Description: The proposed action is to reissue an existing permit for the operation of an existing groundwater remediation project at Public Water Supply Well No. 2. The contaminated groundwater is treated by an air stripper prior to discharging to Huntress Creek. The proposed permit contains limits for tetrachloroethylene as well as monitoring of nitrate, total phosphorus, total recoverable lead, and effluent flow.

Clay Center Public Utilities Commisison  
427 Court Street  
Clay Center, KS 67432

Huntress Creek via  
Drainage Channel

Contact Cooling  
& Process Water

Kansas Permit No. I-LR05-CO02

Federal Permit No. KS0093459

Legal Description: NE¼, S7, T8S, R3E, Clay County, KS

Facility Name: Clay Center Power Plant

Facility Description: The proposed action consists of re-issuance of an existing Kansas/NPDES Water Pollution Control Permit for discharge of once-through cooling water. This facility is a standby electrical generating station used for peaking and emergency power consisting of five dual-fuel combustion engines and two steam turbines. Well water from two on-site wells is used in inter-coolers (air intakes) for once-through cooling of four of the five dual-fuel combustion engines. The fifth dual-fuel engine is radiator jacket cooled and has no cooling water blowdown. City water supply is available on-site as a back-up supply. The proposed permit contains limits for temperature as well as total suspended solids, total phosphorus, total recoverable lead, and effluent flow.

Exxon Mobil Corp.  
1400 S. Harrison  
Olathe, KS 66061

Kansas River via  
Mill Creek

Process Water

Kansas Permit No. I-KS52-PO02

Federal Permit No. KS0082988

Legal Description: NW¼, S1, T14S, R23E, Johnson County, KS

Facility Description: The proposed action consists of re-issuance of an existing Kansas/NPDES Water Pollution Control Permit for a discharge of process and storm water. This facility manufactures greases using refined base oils and commercially available fats, acids, amines, isocyanate, and additives. They also blend gear oils using refined base oils and additives. Steam condensate, cooling tower overflow, potable water line maintenance and fire protection water, and storm water runoff from the plant site are routed through a retention pond with an aerator and an oil/water separator prior to discharge to Mill Creek . Sulfuric acid is used for pH adjustment. Sodium hypochlorite is used to treat cooling tower water. Cooling tower blow down, skimmer waste, boiler blowdown, process ventilation scrubber waste, and domestic waste are connected to sanitary sewer.

DAF solids are sent to a landfill. The proposed permit contains limits for oil & grease, total residual chlorine, and pH, as well as monitoring of total sulfate, total suspended solids, total phosphorus, total recoverable lead, total petroleum hydrocarbons (DRO), priority pollutants, and effluent flow.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Livestock Waste Management Section for agricultural related draft documents or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367.

All comments regarding the draft documents or application notices received on or before **February 4, 2012**, will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-12-001/004, KS-Q-12-001/004) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/ application.

If response to any draft document / application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents / application and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m., Monday through Friday, excluding holidays.
