#### Notice to Consulting Firms

**Note: This project is being re-advertised to include consultants prequalified in category 121 Aviation Systems/Airport Planning.**

The Kansas Department of Transportation (KDOT) is seeking the services of a qualified consulting engineering firm for KDOT Project No. 106 AV-0019-27 to evaluate the pavement condition of specific public-use airports in Kansas. The airports of interest are NOT currently listed in the FAA's National Plan of Integrated Airport Systems (NPIAS), referenced as the non-NPIAS airports. There are 58 non-NPIAS, public-use airports in Kansas; 32 of these airports have paved runways to be studied. The project will be done pursuant to the current version of Federal Aviation Administration (FAA) Advisory Circular 150/5380-7, Airport Pavement Management Program (PMP). The project is further expected to be done in one phase statewide. One year is allotted for all aspects of the project to be addressed in a scope of work: specifically, the services sought include on-site evaluation of pavement, completion of a pavement condition index (PCI) survey and creating a PMP template for each studied airport that can be used by the airport sponsor to address how the airfield pavement may be maintained or upgraded to acceptable PCI levels. Consultant will combine current NPIAS pavement assessment data with non-NPIAS data into a single report for comparison of pavement health. Consultant's report shall also establish three alternatives courses of action that increase economic development through pavement preservation. The final deliverable is a guidance document/manual to be shared with each non-NPIAS airport sponsor to assist in the continued development of airport capital improvement plans. Existing data and reports from the NPIAS airports in Kansas can be viewed on the Kansas Aviation Portal at <http://ksaviationportal.ksdot.org>.

#### Requirements

Interested consulting engineering firms must: (a) be pre-qualified by KDOT in category 121-Aviation Systems/Airport Planning or category 333-Geotechnical Specialty Services (preferably with pavement condition analysis/inventory experience) and (b) submit a Letter of Interest (LOI) on or before 12:00 p.m. July 26, 2019 to David Lutgen, P.E., Contracts Engineer for KDOT by email to [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov) with the subject line reading "Non-NPIAS Airfield Pavement Management Study [Firm Name]." Letters of Interest in the form of a PDF document (maximum size 4 pages) should express interest in the project and describe the particular qualifications for the professional services sought by KDOT, including any

special expertise, skill, equipment, degree of accuracy, experience or knowledge of the firm, its employees and any sub-consultant the firm intends to utilize.

Note: Consultant firms must be capable of incurring, invoicing, and accounting for costs in conformity with generally accepted principles established in the Federal-Aid Policy Guide and the Code of Federal Regulations, Title 48, Chapter 1, Subchapter E, Part 31 (48 CFR Section 31.000 et seq.). The contract for this project is subject all applicable federal provisions, including:

- Title VI of the Civil Rights Act of 1964
- Section 520 of the Airport and Airway Improvement Act of 1982
- DOT Regulation 2 CFR Part 180 & 1200 – Government-wide Debarment and Suspension
- DOT Regulation 49 CFR Part 18.36(i) – Access to Records
- DOT Regulation 49 CFR Part 20 – Lobbying and Influencing Federal Employees
- DOT Regulation 49 CFR Part 26 – Disadvantage Business Enterprises Participation
- DOT Regulation 49 CFR Part 30 – Federal Trade Restriction Clause
- Regulation 48 CFR Part 22.17 – Combating Trafficking in Persons

If a firm is not currently prequalified by KDOT but is interested in obtaining prequalification, then please view the requirements and categories at the website address of <http://www.ksdot.org/divengdes/prequal/default.asp>. For licensure and other requirements applicable to the practice of technical professions within the State of Kansas, please consult the website of the Kansas Board of Technical Professions at <http://www.ksbtp.ks.gov/>. All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas and comply with applicable state and federal laws, rules, and regulations.

#### Qualifications-Based Selection Process

No cost or pricing information shall be submitted with the LOI and will not be considered in the selection process to shortlist or rank proposals. Based on the qualifications submitted in the LOI and other information available to KDOT, on or about August 5, 2019 KDOT will shortlist up to five firms and notify all firms submitting LOIs of the names of the shortlisted firms by return email. Thereafter, KDOT will issue a Request for Proposal (RFP) to the shortlisted firms soliciting a technical proposal. At KDOT's option, shortlisted firms may be interviewed by telephone conference call or asked to attend meetings or participate in other discussions with KDOT. Technical proposals will be evaluated on the basis of the factors listed below, evenly weighted, to rank the most qualified firm in order of preference as first, second, and third: 1) the quality of the response to the RFP; 2) qualifications and experience of consultant personnel proposed for services; 3) proposed (typical and atypical) approach to performance, data gathering, as well as efficiency and accuracy of services; and 4) past performance history. Information relevant to the evaluation criteria include recent relevant experience in airport projects and aviation

(continued)

system-level studies, capability to perform all aspects of the project, ability to meet schedules within budget, experience with PAVER, and knowledge of pertinent FAA/AIP standards. The highest ranked firm will be asked to enter into negotiations with KDOT for a contract, with compensation provisions for payment of actual direct costs plus fixed fee, subject to an upper limit of compensation. In the event KDOT cannot reach agreement with the highest ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

Please do not call, write or otherwise contact KDOT staff for information regarding the services in this RFQ. Email all inquiries/questions to David Lutgen at [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov).

The university is interested in leasing such ground to any individual, organization, or entity whose presence on campus would advance the university's applied learning vision or its mission as an educational, cultural, and economic driver for Kansas and the greater public good, and specifically an emphasis on supporting and growing advanced laboratories for research, testing, and innovation in data infrastructure/storage, video surveillance storage, IOT, security, analytics, visualization/modeling, and machine learning/AI. The university intends to lease such ground for any period of time up to sixty-five years, but extended terms and renewal options would be considered. Interested tenants must be willing to be a good fit with the university's educational mission and identify anticipated benefits to the university, its students, and the WSU community (i.e. applied learning, joint research, faculty start-up, WSU curriculum or program support, etc.), and must agree to the essential ground lease terms and restrictive covenants. Interested tenants will be evaluated on: proposal terms, demonstrated benefit to WSU, design concepts, financial stability, and proposed use. Rental rate shall be assessed per leased or leasable square foot of the building but is negotiable based on term of lease and benefit to the university. The university will consider serious offers and inquiries with detailed proposal terms from any financially qualified individual, group, organization, or company and such offers will be considered until a selection is made or this notice is withdrawn. #### **Directive #19-046**

#### **Scope of Work and Substantial Compliance**

This directive is adopted pursuant to the provisions of K.S.A. 79-505 and shall take effect and be in full force from and after its publication in the Kansas Register.

The following criteria and standards shall be used for appraisals developed in the 2020 valuation cycle (in preparation for January 1, 2020 valuation date) and subsequent years to determine whether a county is in substantial compliance with the statutory requirement to uniformly appraise real and personal property at its fair market value, as defined by K.S.A. 79-503a, and amendments thereto. In order to establish compliance or lack of compliance in each county, the Division of Property Valuation (PVD) shall conduct a ratio study to develop statistical performance measures as required by K.S.A. 79-1485 *et. seq.* PVD shall conduct a procedural audit in each county covering items deemed essential to establishing fair market value. PVD shall determine whether specific Kansas statutes pertaining to property taxation have been followed. In accordance with K.S.A. 79-1445, PVD will publish annually a list of the substantial compliance results for each county.

#### **Criteria and Standards**

The annual substantial compliance process uses an objective scoring system that PVD has developed to evaluate completion of key mass appraisal steps, accomplishment of assessment administration functions, and achievement of accuracy standards in each county. Points are awarded when a county meets minimum statistical performance measures, documentation is verified

to confirm that mass appraisal procedures have been followed, and statutory requirements have been met. A maximum score of 100 is possible. A county must achieve a minimum score of 75 to attain substantial compliance. Any county achieving a score less than 75 shall be found in noncompliance and may be required to submit a detailed plan to correct areas of noncompliance.

Substantial compliance is based upon ratio study performance measures, an audit of procedural steps required to develop a credible mass appraisal, and verification that important statutory mandates have been met. The ratio study conducted by PVD is used to verify that overall value conclusions meet minimum standards of reasonableness, consistency and accuracy. Refusal by county officials to cooperate in the ratio study may result in a noncompliance order. The procedural steps are tied to Kansas statutes and regulations, the International Association of Assessing Officers (IAAO) Standard on Mass Appraisal and the Uniform Standards of Professional Appraisal Practice (USPAP). Refusal by a county or district appraiser to perform any procedural step may result in a noncompliance order. Kansas statutes require

critical functions to be performed and annual processing deadlines to be met by the county or district appraiser. Refusal to comply with any statutory requirement may result in a noncompliance order.

If a county is determined to be in noncompliance, the director may pursue all legal options, including, but not limited to, proceedings before the Board of Tax Appeals and/or the removal of the county or district appraiser from office. PVD may require the county to submit a detailed plan to correct areas of non-compliance. A PVD audit of all property tax functions and responsibilities may be initiated if the county does not implement its approved plan or the plan is ineffective in bringing the county back into compliance.

The director may include an administrative note on the final report if a county fails to achieve industry standard ratio study performance measures. Counties receiving an administrative note may be required to submit a plan to correct the area or areas not meeting the basic statistical standards.

1. STATISTICAL MEASURES COMPLIANCE REVIEW (50 points)

Statistical compliance for the residential and commercial/industrial subclasses shall be determined separately. A maximum of 50 ratio study compliance points are possible for a county that achieves the median ratio (25 points) and COD (25 points) performance goals through statistical point estimates in both subclasses. Subclass points shall be weighted by the percentage of appraised value within the combined subclasses, as derived from the most recent statistical abstract. The percentage of appraised value, divided between the residential and commercial/industrial subclass will be shown at the top of the form. These percentages will be used to develop the point weighting for each statistical measure in the two subclasses. Subclass weights are expected to vary from county to county and from year to year.

The following is an example of the weighting procedure:

Subclass	Appraised Value	Percent of Total Appraised Value
Residential	\$250,000,000	84.7
Commercial/Industrial	\$45,000,000	15.3
Total Appraised Value	\$295,000,000	100.0

Subclass	Percent of Appraised Value (weighted)	Compliance Points Possible	Weighted Points	Points Received
<b>1. Statistical Measures</b>				
<b>Residential</b>				
Appraisal Level	84.7	25	21.2	
Appraisal Uniformity	84.7	25	21.2	
<b>Commercial/Industrial</b>				
Appraisal Level	15.3	25	3.8	
Appraisal Uniformity	15.3	25	3.8	
<b>Statistical Compliance Points</b>			50.0	

- Sum the residential and commercial/industrial appraised value  
 $(\$250,000,000 + \$45,000,000 = \$295,000,000)$
- Divide each subclass appraised value by the total appraised value.  
 $\$250,000,000/\$295,000,000 = 84.7$  percent (Residential)  
 $\$45,000,000/\$295,000,000 = 15.3$  percent (Commercial-Industrial)
- Multiply the percent of appraised value (weighted) by the compliance points possible in each subclass for both the median ratio and COD.  
 $.847 \text{ times } 25 = 21.2$   
 $.153 \text{ times } 25 = 3.8$

.153 times 25 = 3.8  
 .153 times 25 = 3.8

If the statistical point estimate for the median ratio or COD does not meet the minimum ratio study performance goals, the confidence intervals will be examined. 95% confidence intervals will be used for sample sizes greater than five (5), 90% confidence intervals for a sample size of five (5), 85% confidence intervals for a sample size of four (4) and 70% confidence intervals for a sample size of three (3). If the confidence interval fails to reach or overlap the statistical performance goal, the compliance points allocated to the subclass and statistical measure in question will be lost. If the confidence interval reaches or overlaps the minimum performance goal, the points allocated to the statistical measures for that subclass shall be subtracted from the total compliance points, thereby establishing a new base for total possible points. If the sample size for the subclass is less than 3, the points allocated to the statistical measures for that subclass shall be subtracted from the total compliance points, thereby establishing a new base for total possible points. The total points assigned to a county shall be divided by the adjusted base, total possible, and multiplied by 100 to arrive at the total score used to determine substantial compliance. This method will shift more emphasis to the procedural review and statutory components.

The following sales ratio study review shall be used to establish whether the county's appraisal performance measures are in statistical compliance, pursuant to minimum standards established by the Division of Property Valuation.

a. Appraisal Level

The median ratio measure of central tendency must suggest the overall level of appraised value for a subclass falls between 90 and 110 percent.

If the median ratio point estimate does not fall within the compliance range, confidence interval estimates shall be developed to provide an indication of reliability. If, at the 95% level of confidence, the subclass reaches or overlaps a portion of the prescribed range, the appraisal level shall not be found out of statistical compliance.

For example, a ratio study subclass with a sample size of 30:

Median ratio: 85.0 95% Confidence interval: 80.0 to 90.0 would be considered in statistical compliance because it reaches the lower end of the acceptable standard of 90.0 to 110.0 percent.

Median ratio: 85.2 95% Confidence interval: 80.0 to 89.9 would not be considered in statistical compliance because it does not reach the lower end of the acceptable standard of 90.0 to 110.0 percent.

Median ratio: 97.7 95% Confidence interval: 80.0 to 115.0 would be considered in statistical compliance because the point estimate is within the required range and the confidence interval overlaps the entire acceptable range of 90.0 to 110.0 percent.

Median ratio: 114.995% Confidence interval: 110.0 to 120.0 would be considered in statistical compli-

ance because the lower end reaches the acceptable range of 90.0 to 110.0 percent.

Median ratio: 115.295% Confidence interval: 110.1 to 120.0 would not be considered in statistical compliance because the lower end (110.1) does not reach the acceptable range of 90.0 to 110.0 percent.

b. Appraisal Uniformity

The average deviation of ratios about the median appraisal level shall be measured by the coefficient of dispersion (COD). The COD measure must suggest a deviation of 20.0 or less for the *residential* subclass and the *commercial/industrial* subclass to achieve statistical compliance. If a subclass fails to meet this goal, confidence interval estimates shall be developed about the COD. If the range estimate for the subclass includes a COD of 20.0 or less at the 95% level of confidence, appraisal uniformity shall not be found out of statistical compliance.

For example:

COD: 18.0 95% Confidence interval: 13.0 to 22.0

This example is not considered out of compliance because the COD point estimate is less than 20.0. The confidence interval does suggest, however, there is a small probability the true COD could actually be greater than 20.0, due to sampling error.

COD: 30.0 95% Confidence interval: 22.0 to 38.0

This example is considered out of compliance because the COD point estimate is 30.0 and the lower range of the 95% confidence interval does not fall below 20.0 (the maximum limit for compliance).

COD: 22.0 95% Confidence interval: 17.0 to 26.0

This example is not considered out of compliance although the COD point estimate is 22.0. Due to sampling error, it is probable that the true COD is somewhere within the range of 17.0 to 26.0 at the 95% level of confidence. The county would not fail the compliance test because of insufficient statistical confirmation. The lower end of the confidence interval does fall below 20.0 (the maximum limit for compliance).

c. Sample Size

If less than six valid sales are collected for a subclass during the study period, valid sales within the same subclass from the four previous study periods may be included to develop a larger and more reliable sample for analysis.

If less than three valid sales are available in a subclass sample, ratio study performance measures will not be used to determine statistical compliance. The points allocated to the statistical measures for that subclass shall be subtracted from the total compliance points, thereby establishing a new base of total possible points.

If more than half the sales in a subclass sample have been validated from a previous appraisal year ratio study, performance measures will not be used to de-

(continued)

termine statistical compliance. The points allocated to the statistical measures for that subclass shall be subtracted from the total compliance points, thereby establishing a new base of total possible points.

## 2. PROCEDURAL COMPLIANCE REVIEW (42 points)

The following procedural review is designed to establish whether the county's appraisal performance meets the substantial compliance standards. The county or district appraiser must be competent to perform the required appraisal functions required by Kansas statutes, the Uniform Standards of Professional Appraisal Practice, PVD manuals, PVD guidelines and PVD directives. Selection of a private firm whose services are necessary to perform mass appraisal assignments, develop components of a mass appraisal, provide technical appraisal services, or complete project maintenance phases must be made from a list of approved firms supplied by the director of property valuation in accordance with Directive #12-045.

### a. Scope of Work Appraisal Plan (4 points)

The county or district appraiser shall prepare an annual Scope of Work (SOW) appraisal maintenance plan. A copy of the preliminary plan shall be submitted electronically to the Division of Property Valuation by April 30 of each year, detailing the maintenance plan for the current calendar year and in accordance with the Revaluation Maintenance Specifications. The preliminary plan must include a copy of the budget that supports the project.

The SOW is an ongoing process in a mass appraisal assignment. Significant changes during the assignment should be noted in the working SOW document. A copy of the final SOW document, including the signed SOW certification shall be submitted electronically to the Division of Property Valuation within 30 days of the appraiser's certification of the appraisal roll to the county clerk as mandated in K.S.A. 79-1466. Four (4) points are allocated. 2 points allocated for timely submission of the SOW document and 2 points shall be allocated for timely submission of the Quarterly Reports required by K.S.A. 79-1479.

### b. Sales File (4 points)

PVD shall verify that the county has a sales file that documents the validity of sales, field inspection of data and sales price adjustments in accordance with the Revaluation Maintenance Specifications and PVD sales validation guidelines. Both physical and computer files must be continually maintained and updated on a regular basis.

### c. Parcel Maintenance Inspection (4 points)

PVD shall verify the county has performed the required data collection reinspection in accordance with the Revaluation Maintenance Specifications. Field review documentation must be detailed on the field review document showing the data collection changes, quality assignment, and depreciation application. Quality control activities must also be documented. All reinspection activity must have an inspection history record entered into the CAMA

system showing the reviewer name, inspection date, and process code to adequately indicate the purpose of the review. Five (5) points are allocated over two (2) independent phases. Re-inspection is 3 points and QC is 1.

### d. Land Valuation Model Calibration (5 points)

PVD shall verify that the county has developed and calibrated land valuation models in accordance with the Revaluation Maintenance Specifications. Neighborhood analysis forms, analysis documentation, and data summary must be complete to be considered in compliance. PVD shall also confirm land pricing tables have been updated. A market analysis for agricultural land must also be documented. All overrides to land valuation models must be documented. Deviations from model assignments must be documented. Five (5) points are allocated over four (4) independent phases.

### e. Construction Cost Multiplier Analysis (2 points)

If the county deviates from the current cost valuation system, PVD shall verify the county has a current residential and/or commercial/agricultural construction cost multiplier analysis in accordance with the Revaluation Maintenance Specifications. If the county recognizes a deviation from the current cost valuation system, cost tables must be updated to reflect the study. Deviation from the current cost valuation system without documentation will result in the loss of two points for the applicable property type. Sales of newly constructed properties may be used in the analysis for actual construction cost when appropriate. Two (2) points are allocated for this phase. 1 point for residential and 1 point for commercial are the point allocations.

### f. Depreciation Analysis (12 points)

PVD shall verify the county has developed a depreciation analysis in accordance with the Revaluation Maintenance Specifications and PVD sales validation guidelines that utilizes all available valid sales. The county must include appropriate statistics, graphics reports and statistical analyses to test percent good calibration assignments. All forms of depreciation must be documented. The county must update percent good tables, if appropriate, with the results of the yearly analysis. Deviations from model assignments must be documented. This phase is inclusive of all structure types requiring depreciation. Twelve (12) points are allocated over nine (9) independent phases.

### g. Income Approach (5 points)

PVD shall verify the county has made an attempt to collect current I&E data to develop or attempt to develop income models to value appropriate properties. The appraiser must document all I&E, cap rate, and effective tax rate analysis and conclusions must match Orion tables. Deviations from model assignments and all overrides must be documented. Five (5) points are allocated over four (4) independent phases. Comparable Sales Approach (2 points)

h. Comparable Sales Approach (2 points)

PVD shall verify the county has developed a sales comparison approach to value by analyzing the relationship between the sales prices and the real property characteristics. The county must document all sales approach analysis, model specification, model calibration and conclusions in accordance with the Revaluation Maintenance Specifications. Deviations from model assignments must be documented.

i. Final Review Process (4 points)

PVD shall verify that the county has performed the final review of values in accordance with the Revaluation Maintenance Specifications. The county must document the date and person performing the final review. All deviations beyond the PVD specified threshold must be documented. Four (4) points are allocated over four (4) independent phases.

3. AGRICULTURAL USE VALUATION (6 points)

PVD shall verify that the county has met the review/inspection requirements for current agricultural use and influence factors in accordance with the Revaluation Maintenance Specifications. The county must identify current use of agricultural land, which includes cropland, grassland, irrigated land, waterways, non-productive land, and farm home sites. Agricultural use values issued annually by PVD must be updated into the CAMA system. Use of published Division of Water Resource Report will be verified. Six (6) points are allocated over five (5) independent phases.

4. CADASTRAL MAPPING (2 points)

PVD shall verify that accurate property ownership maps are being maintained in accordance with the Revaluation Maintenance Specifications. Updated field maps (showing new plats, splits, and combinations), an updated assessment administration file and adherence to the parcel definition must be maintained.

5. STATUTORY COMPLIANCE No points allocated; 5 points deducted for non-compliance of each Statutory requirement)

The following review areas are to establish whether the county is following Kansas statutes not previously covered. No points are allocated to these line item entries but point deductions are possible if requirements are not met.

- a. A real estate value trend study is published at least five business days prior to the mailing of the CVN's (K.S.A. 79-1460A). Change of value notices are mailed on or before the statutory deadline, provided an extension has not been granted pursuant to K.S.A. 79-1404, *Seventeenth*, or an alternate form of notification approved pursuant to K.S.A. 79-1460 (K.S.A. 79-1460).
- b. Informal hearings are held within statutory time-frame, provided an extension has not been granted pursuant to K.S.A. 79-1404, *Seventeenth* (K.S.A. 79-1448).
- c. Values are certified to county clerk by statutory deadline, provided an extension has not been granted

ed pursuant to K.S.A. 79-1404, *Seventeenth* (K.S.A. 79-1466 and 79-1467).

- d. Personal property is listed as required and penalties applied where applicable (K.S.A. 79-306 and 79-1422; K.S.A. 79-332a).
- e. The preservation and protection of all property tax records (K.S.A. 45-403).
- f. Valuation Guides prescribed by the Director of Property Valuation are adhered to (K.S.A. 79-1456)

**111-4-881. Determination of "State Fair Drawings" winners.** (a) At least 10 minutes before the drawings, the co-sponsor or person designated by the executive director, shall announce to the audience the time that the winner selection process will begin. Any persons wishing to enter the drawing who have not yet done so, shall immediately place their tickets into the receptacle or drum at this time.

(b) The co-sponsor or person designated by the executive director shall announce that entries into the "State Fair Drawings" are closed. No further entries will be accepted. If sealable, the drawing receptacle or drum shall then be sealed.

(c) All non-winning tickets placed in receptacles or drums at the locations identified in subsections (a)(5) and (6) of K.A.R. 111-4-880 shall be under the supervision of the lottery security personnel present prior to each "State Fair Drawing."

(d) Daily drawings shall be conducted only from valid entries placed in the receptacle or drum at the state fair lottery location. After the first daily drawing, subsequent daily drawings shall be drawn from entries received from the close of each daily drawing until the close of the next daily drawing. Following each daily drawing, lottery security shall remove all entries for the just completed drawing from the receptacle, and retain custody of the tickets until they can be destroyed.

(e) The receptacle or drum shall be rotated a minimum of 10 times or the contents mixed thoroughly with a shovel or other means by lottery security personnel present to ensure random selection. After rotation or mixing, any seals shall be removed.

(f) The executive director or his or her designee shall designate one individual of their choice to participate in the selection process.

(g) The selection of "State Fair Drawings" winners shall be accomplished by the individual designated by the executive director or his or her designee, using a bare arm technique, while looking away from the receptacle and removing only one ticket from the receptacle in which all entries were placed. The lottery security officers present shall review the selected ticket to determine if the name stated on the information form located on the back of the selected ticket is legible and whether the ticket is valid. This process shall be repeated until five valid entries have been drawn.

(h) The named person is not required to be present in order to win the "State Fair Drawings" prizes described in K.A.R. 111-4-879. The security person conducting the drawing shall be responsible for the final determination concerning the legibility of the name on any ticket drawn and its validity.

(i) The five persons whose tickets have been drawn from the receptacle or drum and who meet the entry and validation requirements at each drawing shall be determined "State Fair Drawings" winners.

(j) Each winner shall be given or mailed a prize claim form to be completed and returned to the lottery within 45 days of the drawing.

(k) If the name on any ticket drawn is not legible or there is insufficient information on the information form, the ticket drawn will be void and the selection process shall be repeated until a valid ticket eligible for the drawings identified in K.A.R. 111-4-877 is selected.

(l) After five valid entries have been drawn for each daily drawing, five additional tickets shall be drawn following the procedure in subsection (g) above and given to lottery security to hold as alternates designated as 1A, 2A, 3A, 4A, and 5A. If the prize winner cannot be located, is declared ineligible, or fails to return the completed claim form in the allotted time, the prize will be awarded to an alternate winner. In the event an alternate winner is awarded a prize, that alternate winner must return his or her completed claim form, electronically, by U.S. mail, or hand-delivered, and the claim form must be received by the Kansas Lottery within 14 calendar days following the date the alternate winner was sent a claim form electronically or by U. S. mail or another alternate will be selected until all alternates are exhausted. The Kansas Lottery is not responsible for electronic malfunction or player error. (Authorized by and implementing K.S.A. 74-8710; effective, T-111-7-22-96, July 19, 1996; amended, T-111-8-25-97, Aug. 15, 1997; amended, T-111-6-8-00, May 12, 2000; amended, T-111-6-19-00; June 16, 2000; amended, T-111-1-12-04, Dec. 9, 2003; amended, T-111-6-19-19, May 22, 2019.)

**111-4-3547. 2019 Kansas State Fair second-chance drawing.** (a) The Kansas Lottery may conduct a second-chance drawing in conjunction with the Kansas State Fair event giving away five (5) \$500 cash prizes. The drawing will be on September 19, 2019, and the winners will be announced on September 20, 2019.

(b) To enter the drawing, a player shall purchase \$20 of any Kansas Lottery ticket(s) in a single purchase at the Kansas Lottery's selling location at the Kansas State Fair. A player may purchase lottery products during the hours the Kansas Lottery selling location at the Kansas State Fair is open each day to the public beginning September 6, 2019, through September 15, 2019. For each qualifying purchase, the player will be given an official entry form by the representative selling the ticket(s). A player shall complete the entry form in a legible manner and deposit the entry form into a receptacle designated for the purpose of this drawing no later than 2:00 p.m. on September 15, 2019. Only one name shall appear on an eligible entry.

(c) After the close of entries on September 15, 2019, the entry forms shall be transported by Kansas Lottery security officials, or security designee as appointed by security person on duty, in a sealed container from the selling location at the Kansas State Fair to Kansas Lottery headquarters and secured until the drawing occurs.

(d) At the designated time and date, the drawing shall be conducted by a drawing official designated by the ex-

ecutive director of the Kansas Lottery in accordance with the Kansas Lottery’s established drawing procedures.

Five (5) entries shall be drawn. The person whose name appears on each valid entry drawn shall be the winner of a prize described in these rules. After five (5) entries have been drawn and verified as valid, five more valid entries will be drawn, one at a time, which entries drawn will serve as alternate entries. The alternate entries will be marked in the order drawn, 1A, 2A, 3A, 4A, and 5A.

Each person who is selected as a prize winner in the drawing described above, will be sent an email with an electronic claim form attached, followed by the same documentation sent by U.S. mail. That winner must return his or her completed claim form, electronically, by U.S. mail, or hand-delivered to the Kansas Lottery claims center, and the claim form must be received by the Kansas Lottery within 14 days following the date the winners are announced. If the prize winner cannot be located, is declared ineligible, or fails to return the completed claim form in the allotted time, the prize will be awarded to an alternate winner. In the event an alternate winner is awarded a prize, that alternate winner must return his or her completed claim form, electronically, by U.S. mail, or hand-delivered, and the claim form must be received by the Kansas Lottery within 14 calendar days following the date the alternate winner was sent a claim form electronically or by U. S. mail or another alternate will be selected until all alternates are exhausted. The Kansas Lottery is not responsible for electronic malfunction or player error.

(e) There is no limit on the number of entries a person may make, but a person may only win one \$500 prize.

(f) Eligible entrants in the 2019 Kansas State Fair second-chance drawing must be 18 years of age or older.

(g) Completing the information on the entry form and entering the second-chance drawing constitutes authorization to publicly identify the persons whose entries are drawn.

(h) The Kansas Lottery shall not be responsible for any lost, destroyed, mutilated, illegible, or altered entries into the Kansas State Fair drawing. Illegible or incomplete entries may be discarded.

(b) The first player to accept the dice when offered shall become the shooter who shall select and retain two of the dice offered. Prior to selecting the dice, the shooter shall make a pass bet after which the shooter shall throw the two selected dice so that they leave the shooter’s hand simultaneously and in a manner calculated to cause them to strike the end of the table farthest from the shooter. It shall be the option of the shooter, after any roll, either to pass the dice or remain the shooter except that the shooter shall pass the dice upon throwing a losing total of 7 (this does not apply to the come out roll). The table games supervisor may order the shooter to pass the dice to another player if the shooter unreasonably delays the game, repeatedly makes invalid rolls or violates applicable rules and regulations pertaining to the game of craps no more.

(c) If a shooter, after making the come out point, elects not to place a pass bet, and other wagers remain on the table with respect to come numbers, the craps no more stickperson shall offer the dice to the player immediately to the left of the previous shooter.

(d) The stickperson, boxperson, table games supervisor or a higher-ranking casino employee shall have the authority to invalidate a roll of the dice by calling “no roll” for any of the following reasons:

(1) If the wrong player picks up the dice and throws or rolls them.

(2) If the dice do not hit the end of the table opposite the shooter.

(3) The dice do not leave the shooter’s hand simultaneously.

(5) Either or both of the dice come to rest in the dice bowl in front of the stickperson or on one of the rails surrounding the table.

(6) Either or both of the dice go off the table.

(7) Whenever one die comes to rest on top of the other.

(11) If the shooter attempts to deface or actually defaces the dice, no matter if done purposely or unintentionally.

(29) "High-low" means a one-roll split bet aces (2) and twelve (12).

(30) "Ace deuce—any craps split" means a one-roll split bet which is unique because if one die shows one spot up and the other die shows two spots up, both sides of the split bet win.

(31) "Put bets" are bets that are made directly on any number at any time, including the point, after the come-out roll has already been made.

(32) "Fire bets" are optional wagers that may be offered on selected craps tables that are placed before the first point is established by a new shooter. The wagers will win if three (3) or more of the six (6) individual points are made by the shooter before the shooter rolls a seven (7). The wagers will lose if two (2) or fewer of the six (6) individual points are made by the shooter before the shooter rolls a seven (7). "Individual points" in the game of craps are the following totals shown on the two dice: four (4), five (5), six (6), eight (8), nine (9), and ten (10). For purposes of fire bets, only the first of each individual point made before the shooter rolls a seven (7) counts toward the total number of individual points made and any duplicate individual point(s) made during that time are irrelevant. A fire bet cannot be removed, called off, added to or increased once the new shooter has established the initial point.

(33) "All small" is an optional wager that may be offered on selected craps tables that is placed before the point is established by a new shooter. The wager will win if each of the totals 2, 3, 4, 5, and 6 are all rolled by the shooter before a 7 is rolled. The number totals 2, 3, 4, 5, and 6 may be rolled in any order, the same number total may be rolled more than once, and rolling the totals 8, 9, 10, 11, or 12 are irrelevant to the wager. The wager will lose if a 7 is rolled before each of the totals 2, 3, 4, 5, and 6 are all rolled by the shooter. An all small bet cannot be removed, called off, added to or increased once the shooter has rolled a number other than seven (7).

(34) "All tall" is an optional wager that may be offered on selected craps tables that is placed before the point is established by a new shooter. The wager will win if an each of the totals 8, 9, 10, 11, and 12 are all rolled by the shooter before a 7 is rolled. The totals 8, 9, 10, 11, or 12 may be rolled in any order, the same totals may be rolled more than once, and rolling the totals 2, 3, 4, 5, or 6 are irrelevant to the wager. The wager will lose if a 7 is rolled before each of the totals 8, 9, 10, 11, and 12 are all rolled by the shooter. An all tall bet cannot be removed, called off, added to or increased once the shooter has rolled a number other than seven (7).

(35) "Make 'em all" is an optional wager that may be offered on selected craps tables that is placed before the point is established by a new shooter. The wager will win if totals 2, 3, 4, 5, 6, 8, 9, 10, 11, and 12 are all rolled by the shooter before a 7 is rolled. The totals 2, 3, 4, 5, 6, 8, 9, 10, 11, and 12 may be rolled in any order and the same total may be rolled more than once. The wager will lose if a 7 is rolled before totals 2, 3, 4, 5, 6, 8, 9, 10, 11, and 12 are

all rolled by the shooter. A make 'em all bet cannot be removed, called off, added to or increased once the shooter has rolled a number other than seven (7). (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-2-2-17, November 9, 2016; amended, T-111-4-18-18, Feb. 27, 2018; amended, T-111-10-30-18, Sept. 13, 2018; amended, T-111-6-19-19, May 22, 2019.)

(b) Wagers shall be made before the dice are thrown.

(c) Wagers may be made by a player or may be made by verbal confirmation of a desired bet communicated to the dealer by the player with subsequent placement of said bet on the appropriate portion of the layout by the dealer.

(d) Except as may otherwise be specifically set forth in these rules, a wager made on any bet may be removed or reduced at any time prior to a roll that decided the outcome of such wager. A pass bet and a come bet shall not be removed or reduced after a come-out point or some point is established with respect to such bet. Pass and come bets are always active and may be increased between rolls, but cannot be withdrawn until the bet either wins or loses.

(e) A don't come bet and a don't pass bet may be removed or reduced at any time but may not be replaced or increased after such removal or reduction until a new come-out roll.

(f) All place bets, come bet odds and hardways shall be inactive on any come-out roll unless requested "on" by the player and confirmed by the dealer through placement of an "on" button on top of the wager. All other wagers shall be considered active unless a player requests to have his bets inactive. The dealer through placement of an "off" button must confirm this.

(g) Minimum and maximum table limits will be posted.

(h) If a player wagers less than the table minimum bet and the dealer does not notice it, the dealer shall take or pay the amount actually bet and instruct the player of the minimum amount that must be wagered on subsequent bets.

(i) If in error a player has been permitted to wager more than the table maximum, the dealer shall remove the excess and return it to the player, pay the bet at the correct odds for the maximum allowable wager, and inform the player of the permissible amount that can be wagered on subsequent bets.

(j) In the event of a dealer placing a bet for a player, chips shall not be taken from the player's hands or from the rack in front of the player. All chips for the bet shall be set down on the layout by the player and the dealer shall clarify the purpose of the chips before picking them up.

**Article 305.—SPECIFIC LOTTERY FACILITY GAMES  
AT LOTTERY GAMING FACILITIES;

**111-305-4. Poker rankings.** (a) The rank of the cards used in three card poker, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3, and 2. All suits shall be considered equal in rank. Notwithstanding the foregoing, an ace may be used to complete a "straight flush" or a "straight" with a two and three.

(b) The permissible poker hands in the game of three card poker, in order of highest to lowest rank, shall be:

(1) "Straight flush" is a hand consisting of three cards of the same suit in consecutive ranking, with ace, king, and queen being the highest ranking straight flush and three, two and ace being the lowest ranking straight flush.

(2) "Three-of-a-kind" is a hand consisting of three cards of the same rank, regardless of suit, with three aces being the highest ranking three-of-a-kind and three twos being the lowest ranking three-of-a-kind.

(3) "Straight" is a hand consisting of three cards of consecutive rank, regardless of suit, with ace, king and queen being the highest ranking straight and three, two and ace being the lowest ranking straight.

(4) "Flush" is a hand consisting of three cards of the same suit, regardless of rank.

(5) "Pair" is a hand consisting of two cards of the same rank, regardless of suit, with two aces being the highest ranking pair and two twos being the lowest ranking pair.

(c) When comparing two hands that are of identical poker hand rank pursuant to the provisions of (b) above, or that contain none of the hands authorized in (b) above, the hand that contains the highest ranking card as provided in (a) above that is not contained in the other hand shall be considered the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands shall be considered a "draw," the player does not win or lose the ante wager and play wager and the ante wager and play wager are returned to the player.

(d) The permissible poker hands in the optional six card bonus wager, in order of highest to lowest rank, shall be as follows:

(1) "royal flush" is a hand consisting of an ace, king, queen, jack and ten, all of the same suit;

(2) "straight flush" is a hand consisting of five cards all of the same suit and in consecutive ranking;

(7) "three-of-a-kind" is a hand consisting of three cards of the same rank, regardless of suit.

(e) A player who has made a winning six card bonus wager shall only receive the payout for the highest ranking five-card poker hand that can be formed with the cards of the player and dealer.

(f) A six card bonus wager shall have no bearing upon the outcome of any other wager made by a player at the game of three card poker, and no other wager made by a player at the game of three card poker shall have any bearing upon the outcome of a six card bonus wager made by a player. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-3-23-10, Feb. 17, 2010; amended, T-111-7-2-19, June 12, 2019.)

**111-305-6. Play.** (a) All play wagers shall be placed as provided below:

(1) Play-dealing. All ante wagers, pair plus wagers, and six card bonus wagers shall be placed prior to the first card being dealt.

(2) Each player and the dealer are dealt three cards face down.

(b) After the dealing above has been completed, each player shall examine his or her cards. Each player who wagers at three card poker shall be responsible for his or her own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(c) After examination of his or her cards, each player who has placed an ante wager shall have the option to either make a play wager in an amount equal to the player's ante wager or forfeit all wagers and end his or

her participation in the round of play. The dealer shall offer this option to each player, starting with the player farthest to the left of the dealer and moving clockwise around the table in order. After each player has either placed a wager on the table in the play wager area or forfeited his or her wager(s) and hand, the dealer shall collect all forfeited wagers and associated cards, placing them in the discard rack or automatic shuffling machine. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking hand.

(d) The dealer shall then settle the wagers remaining on the table by performing the procedure in (e) immediately below. The dealer's cards shall be placed in the discard rack or automatic shuffling machine after all players' cards have been collected.

(e) The dealer shall, for each of the following procedures, start with the player farthest to the dealer's right and continue counterclockwise around the table until the procedure has been completed as to all players:

- (1) Reveal the three card hand of each remaining player;
- (2) Collect all losing wagers;
- (3) Pay each winning wager in accordance with the payout odds listed below; and
- (4) Collect all player hands and place them in the discard rack or automatic shuffling machine.

(f) All cards collected by the dealer shall be picked up in order and placed in the discard rack or automatic shuffling machine in such a way that they can be readily arranged to reconstruct each hand in the event of a question or dispute.

(g) There are four payout types, as follows:

(1) A player in competition against the dealer shall be paid 1 to 1 on both the ante wager and the play wager if the player's hand is ranked higher than the dealer's hand; however, a player's hand must beat the dealer's qualifying hand of a queen or higher ranking card to win both wagers. If the dealer does not hold a hand with a "queen high or better" rank, the ante wager shall automatically be paid 1 to 1 and the play wager shall be returned to the player as a "draw."

(2) A player placing a pair plus wager shall be paid in accordance with a posted pay table at no less than the following odds:

Pair	1 to 1
Flush	3 to 1
Straight	6 to 1
Three-of-a-kind	30 to 1
Straight flush	40 to 1

(3) A player placing an ante wager and a play wager shall be paid an ante bonus if the player's hand consists of one of the following:

Straight	pays	1 to 1
Three-of-a-kind	pays	4 to 1
Straight flush	pays	5 to 1

If the dealer's hand beats the player's hand, the player loses the ante and the play bets, but the player receives the ante bonus as specified above. The ante bonus is paid even if the player does not wager the pair plus wager.

(4) A player may also make an optional six card bonus wager, as follows:

(A) A six card bonus wager may be placed by a player in the designated area of the table game layout. A six card bonus wager is resolved by using the player's three cards and the dealer's three cards to form the player's best five card poker hand.

(B) An additional six card bonus wager may be made as a tip for the dealer.

(C) Payout odds on a winning six card bonus wager will be:

- (i) If the player's five card hand contains three-of-a-kind, 7 to 1;
- (ii) If the player's five card hand contains a straight, 10 to 1;
- (iii) If the player's five card hand contains a flush, 15 to 1;
- (iv) If the player's five card hand contains a full house, 20 to 1;
- (v) If the player's five card hand contains a four-of-a-kind, 100 to 1;
- (vi) If the player's five card hand contains a straight flush, 200 to 1;
- (vii) If a player's five card hand contains a royal flush, 1,000 to 1.

(D) A six card bonus wager will win only if the player's five card hand contains a three-of-a-kind, straight, flush, full house, four-of-a-kind, straight flush or a royal flush. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-3-23-2010, Feb. 17, 2010; amended, T-111-7-14-11, June 15, 2011; amended, T-111-7-2-19, June 12, 2019.)
