SPILL REPORTING INSTRUCTIONS:

The spiller is responsible for reporting spills that impact the soil or waters of the state. Hazardous materials that are released in the air that exceed federal reportable quantities must **also** be reported to the state reporting number. The federally listed chemicals and reportable quantities (RQ) can be obtained at www.epa.gov/emergencies under the tab of “List of Lists”. Kansas regulations and statutes regarding spill reporting are included on pages 8 through 9 of this document. A spiller may call one number 24/7 to make the required verbal notification to the state of Kansas.

Kansas Spill Reporting Number (24/7)

785-291-3333

LEPC/ CEPR

If the release is not contained or threatens the health or safety of the local population, the Local Emergency Planning Committee (LEPC) within the county of the release must be notified first by dialing 911. The LEPC point of contact in most counties is the county emergency manager.

Whenever a spill exceeds the RQ of federally listed hazardous materials, the LEPC must be notified and the Kansas Commission on Emergency Planning & Response (CEPR) requires a follow up written report within seven days after the verbal report. The Kansas Division of Emergency Management (KDEM) facilitates the follow up written report which is called a Form A report. KDEM also requires a follow up Form A report for petroleum spills that exceed 110 gallons.

KCC Regulated Spills

Spills that occur at oil and gas wells are reportable to the Kansas Corporation Commission (KCC). Spillers may call the same number above to be directed to the KCC reporting numbers (select option 1 and then option 3) or may call the KCC district offices direct.

The KCC district office numbers are listed on page 7.

Call the spill line shown above and select option 1 if an oil spill flows off a lease into a waterway after normal business hours and report the spill to the National Response Center (NRC).

National Response Center

Whenever a spill exceeds the RQ of federally listed hazardous materials, it must also be reported to the National Response Center (NRC). Federal law also requires that any oil spill that has impacted or threatens a waterway must be reported to the NRC. EPA Region 7 Emergency Response Branch personnel monitor the NRC reports and may call the spiller back for more information.

K. A. R. 28-48. – SPILL REPORTING

28-48-1. **Definitions.** The following words and phrases when used in these regulations have the meanings respectively ascribed to them in this section.

(a) "Owner" means individual, partnership, firm, trust, company, association, corporation, institution, political subdivision or agency which is financially responsible for the material or facility.

(b) "Person responsible" means person or organization which has been placed in control of the material or facility by the owner.

(c) "Waters of the state" means all streams and springs, and all bodies of surface or groundwater, whether natural or artificial, within the boundaries of the State. (Authorized by and implementing K.S.A. 1984 Supp. 65-171d; effective May 1, 1986.)

28-48-2. **Action required.** All sewage, substances, materials, or wastes, as set forth in 65-171d, regardless of phase or physical state, which are, or threaten to contaminate or alter any of the properties of the waters of the state or pollute the soil in a detrimental, harmful, or injurious manner or create a nuisance, shall be reported in the following manner:

(a) The owner or person responsible for the discharge or escape of materials detrimental to the quality of waters of the state or pollution of the soil under conditions other than provided by a valid permit issued by the secretary of health and environment, shall report the discharge or escape to the Kansas department of health and environment.

(b) Emergency or accidental discharge of materials which are detrimental to the quality of waters of the state or tend to cause pollution of the soil shall be immediately reported to the Kansas department of health and environment by the owner, owner's representatives, or person responsible. In the event the pollution causing material is in transit or in storage within the state, the owner, carrier, or person responsible for storage shall be responsible for immediate notification to the Kansas department of health and environment that the pollutant will gain admittance to the waters of the state or the soil. (Authorized by and implementing K.S.A. 1984 Supp. 65-171d; effective May 1, 1986.)

K. S. A. 65-171v – CLEANUP OPERATIONS

Chapter 65. --PUBLIC HEALTH

Article 1. --SECRETARY OF HEALTH AND ENVIRONMENT, ACTIVITIES

65-171v. Cleanup operations for water or soil pollutants; duties of secretary; recovery of costs by attorney general and disposition thereof. Whenever a water or soil pollutant is discharged intentionally, accidentally or inadvertently and the secretary of health and environment or his or her authorized representative determines that the discharged material must be collected, retained or rendered innocuous, and if a discharger refuses to undertake cleanup operations or if the responsible discharger is unknown at the time, the secretary or his or her authorized representative may enter into an agreement with a person to conduct the necessary cleanup operations with payment for such cleanup work to be provided from the pollutant discharge cleanup fund. Any person responsible for or causing the discharge of materials which are determined necessary to cleanup under the provisions of this act shall be responsible for repayment of the costs of cleanup work upon reasonably detailed notification by the secretary or his or her authorized representative. If the responsible person fails to promptly submit payment for costs of the cleanup operations when so notified, such payment shall be recoverable in an action brought by the attorney general on behalf of the people of the state of Kansas in the district court of the county in which such costs were incurred. Any moneys recovered under this section shall be remitted to the state treasurer. Upon receipt thereof, the state treasurer shall deposit the entire amount thereof in the state treasury to the credit of the pollutant discharge cleanup fund.

History: L. 1979, ch. 269, § 2; July 1.

DISCLAIMER

The above regulations represent an electronic facsimile of Kansas Administrative Regulations, promulgated by the Kansas Department of Health and Environment and published by the Kansas Secretary of State. These rules are taken from electronic copies of the printed state regulations that serve as the agency's official rules and regulations. The excerpt portion of KSA 65-171D has been included in this document for informational purposes. This statute provides the basis for the regulations. The printed regulations represent the final word in matters of interpretation.

The KDHE Office of Public Information has appended copies of the *Kansas State Register* publication of new or amended, permanent KDHE regulations to the appropriate chapter. Those amendments are noted on the cover sheet for each chapter. In the interest of saving space, some chapters have been grouped together. Nothing contained herein should be construed as legal advice by KDHE. If you are not an attorney, you should secure competent counsel to interpret the regulations and advise you.

While every effort has been made to assure the accuracy, these electronic copies do not represent the official regulations of the state. The official regulations are the bound copies printed by the Secretary of State
