

HIV in Kansas

Bi-Annual Report for January 1 – June 30, 2018

**STI/HIV Surveillance Program
STI/HIV Section
Bureau of Disease Control and Prevention
Kansas Department of Health and Environment**

Sources of information for this report:
Kansas HIV Surveillance System (eHARS)

For further information please contact the STI/HIV Surveillance Program at 785-296-6174
or email HIV_Request@kdheks.gov

To see previous annual and bi-annual reports go to http://kdheks.gov/sti_hiv

Disclaimer: There may be differences from previously reported data due to data cleaning efforts.

The STI/HIV Section works to stop the spread of STIs & HIV in Kansas

Notes:

- Incident Cases: Individuals with HIV or Stage 3 (previously defined as AIDS) who are newly diagnosed in Kansas between January 1– June 30, 2018.
- Prevalent Cases: Individuals with HIV or Stage 3 (previously defined as AIDS) who are presumed to be alive as of June 30, 2018.
- Data is presented as person-based rather than case-based, i.e. those categorized as Stage 3 are not included in the HIV incidence or prevalence count. They are exclusively present in the Stage 3 incidence or prevalence count.

Disclaimer: The purpose of this publication is to illustrate health conditions in the State of Kansas. This product may be corrected or updated as necessary without prior notification. The included map product is provided without representation or implied or expressed warranty of accuracy for any uses beyond those expressed. The originating agencies are not responsible for publication or use of this product for purposes other than those expressed. Except for the limited purposes allowed in K.S.A. 21-3914, knowingly selling, giving, or receiving any list of names, addresses or maps contained in or derived from public records is a crime.
