Describe how violations and/or non-compliance issues are addressed at this facility:

K.A.R. 28-45-16(n) requires the permittee for each underground hydrocarbon storage facility to properly conduct an inspection of facility records on the Biennial Records Review form found at: <http://www.kdheks.gov/uhs/download/FacilityRecordReview.pdf> every two years to ensure that the required records are being maintained. The permittee shall maintain these records at the facility and make the records available for inspection by KDHE upon request.
