

**SUBPART G -STANDARDS FOR USED OIL BURNERS WHO BURN OFF-SPECIFICATION
USED OIL FOR ENERGY RECOVER**

YES NO NA V#

1. If the burner is burning off-specification used oil and does not meet the exemptions listed in 279.60(a)(1) (generator burning in space heater) or 279.60(a)(2) (burned for purpose of processing used oil), is the Off-Specification used oil burned in an industrial furnace as defined in 40 CFR 260.10, a boiler as defined in 40 CFR 260.10 and 40 CFR 279.61(a)(2), and/or a hazardous waste incinerator subject to Subpart O of 40 CFR 264? **40 CFR 279.61(a)**

2. If the used oil burner processes used oil do they comply with 279 Subpart F (Processors and Re-Refiners)? **40 CFR 270.61(b)(1)**

3. If the used oil burner aggregates off-specification used oil with virgin oil or on-specification used oil is this done only for purposes of burning (not just to produce on-specification used oil)? **40 CFR 279.61(b)(2)**

4. Has the Used Oil Burner notified and obtained an EPA identification number? **40 CFR 279.62(a)**

5. Does the Used Oil Burner determine the total halogen content? **40 CFR 279.63(b)**
 - a. If yes, how was this determination made:
 - A. testing the used oil? **40 CFR 279.63(b)(1)**
 - B. knowledge of halogen content of the used oil in light of the materials or processes used? **40 CFR 279.63(b)(2)**
 - C. using information provided by used oil processor/re-refiner? **40 CFR 279.63(b)(3)**
 - b. If the halogen content is above 1,000 ppm total halogen is it:
 - A. presumed to be hazardous waste and managed accordingly? **40 CFR 279.63(c)**
 - B. not presumed to be hazardous waste, because the owner/operator is using analytical data to demonstrate that the used oil does not contain hazardous waste and therefore rebutt the presumption that the used oil is hazardous waste? **40 CFR 279.63(c)**

6. Are records of analyses conducted or information used to determine the halogen content maintained by the burner for at least 3 years? **40 CFR 279.63(d)**

7. If the facility stores used oil in tanks, containers or other units regulated under parts 264 or 265:
 - a. Are units in good condition? **40 CFR 279.64(b)(1)**
 - b. Are units free from leaks? **40 CFR 279.64(b)(2)**
 - c. Is secondary containment provided? **40 CFR 279.64(c)**
 - A. If yes, Does secondary containment consist of dikes, berms, or retaining walls? **containers 40 CFR 279.64(c)(1)(i) existing above ground tanks-40 CFR 279.64(d)(1)(i) or new above ground tanks-40 CFR 279.64(e)(1)(i)**
 - B. Does secondary containment have a floor that covers the entire area within the dikes, berms, or retaining walls (except where existing portions of the tanks meet the ground), or an equivalent system? **containers-40 CFR 279.64(c)(1)(ii) existing above ground tanks-40 CFR 279.64(d)(1)(ii) or new above ground tanks-40 CFR 279.64(e)(1)(ii)**

SUBPART G (Continued)

YES NO NA V#

7. c. C. Is the secondary containment impervious to used oil?
containers-40 CFR 279.64(c)(2)
existing above ground tanks-40 CFR 279.64(d)(2)
or new above ground tanks-40 CFR 279.64(e)(2)
8. Is the following labeled or clearly marked with the words "USED OIL"?
 a. Containers and above ground storage tanks? **40 CFR 279.64(f)(1)**
 b. Fill pipes for underground storage tanks **40 CFR 279.64(f)(2)**
9. If a release of used oil has occurred on-site:
 a. Was the release stopped? **40 CFR 279.64(g)(1)**
 b. Was the release contained? **40 CFR 279.64(g)(2)**
 c. Was the released oil cleaned-up and managed properly? **40 CFR 279.64(g)(3)**
 d. Were necessary repairs made or defective equipment replaced?
40 CFR 279.64(g)(4)
10. Does facility keep records of each used oil shipment? **40 CFR 279.65(a)**
 If yes, does each record of shipment include the following information:
 a. The name and address of the transporter who delivered the used oil to the burner? **40 CFR 279.65(a)(1)**
 b. The name and address of the generator or processor or processor/re-refiner from whom the used oil was sent to the burner? **40 CFR 279.65(a)(2)**
 c. The EPA identification number of the transporter who delivered the used oil to the burner? **40 CFR 279.65(a)(3)**
 d. The EPA identification number (if applicable) of the generator or processor/re-refiner from whom the used oil was sent to the burner? **40 CFR 279.65(a)(4)**
 e. The quantity of used oil accepted? **40 CFR 279.65(a)(5)**
 f. The date of acceptance? **40 CFR 279.65(a)(6)**
11. Are these records maintained for at least three years? **40 CFR 279.65(b)**
12. Does the used oil burner provide to the generator, transporter, or processor/re-refiner, a one-time written and signed notice before accepting the first shipment of off-specification used oil? **40 CFR 279.66(a)**
 a. If yes, does this notice include the following information:
 A.. The burner has notified EPA stating the location and general description of used oil management activities? **40 CFR 279.66(a)(1)**
 B. The burner will burn the off-specification used oil only in an industrial furnace or boiler? **40 CFR 279.66(a)(2)**
 b. If yes, is this certification maintained for three years from the date the last shipment of OFF-SPECIFICATION used oil is shipped to the burner? **40 CFR 279.66(b)**
13. Does the burner manage residues from the storage or burning of used oil accordance with 279.10(e)? **40 CFR 279.67**
