

D. What is the source of the water used for makeup water?

City/Rural Water District water Untreated well water Stormwater

Stream (Identify): _____ Lake (Identify): _____

Other (Describe): _____

E. Does this facility use retention basins to contain water used to wash equipment? Y N

If yes, Answer question #F. If no, skip to question G.

F. Description of Wastewater/Stormwater Containment and Settlement Basins:

What is the material of construction of the basins? **Add Basin C (if present)**

Basin A

Basin B (if present)

Concrete structures. (Self Supporting)

Concrete lined earthen basins.

Asphalt lined earthen basins.

Plastic or other type lined earthen basins

Unlined earthen basins.

Other; Please describe: _____

G. How does this facility get rid of wastewater? (Check all that apply)

- 1 No Controls – the wastewater seeps into the ground, evaporates, or runs off the site.
- 2 The wastewater overflows/flows from the retention basin.
- 3 Evaporation and percolation only (no discharge to a ditch or waterway)
- 4 Re-use wastewater in production of concrete
- 5 Dust control on roads and/or sand/gravel piles.
- 6 Haul to another site/plant. (Identify site or plant) _____
- 7 Irrigation of adjacent land.
- 8 Other; Please describe: _____

H. How are solids from the retention basins disposed of/re-used?

I. How is domestic wastewater (from showers, sinks, toilets) disposed of?

Connected to a centralized wastewater treatment plant

Hauled off to a wastewater treatment plant

Septic Tank/Lateral Field

Domestic Wastewater Lagoon

Portable Toilets

Other (Describe) _____

V **STORMWATER POLLUTION PREVENTION PLAN**

- A. Permit Renewal/Reissuance - Permit renewals for existing facilities without any proposed modifications shall submit a SWP2 Plan Certification Completion Form and updated site map with the first annual report, within one year of permit issuance. All settlement and containment structures being permitted must be identified in the SWP2 Plan and on the map, and the legal location (latitude and longitude) of each structure must be identified.
- B. Permit Modification/New Permit - Permits for new facilities and existing facilities proposing modifications to the site shall submit a SWP2 Plan Certification Completion Form and an up-to-date site map with the NOI. All settlement and containment structures being permitted must be identified in the SWP2 Plan and on the map, and the legal location (latitude and longitude) of each structure must be identified.
- C. Settlement and Containment Structure Compliance - At the time of SWP2 Plan Certification Completion, identified settlement and containment structures must indicate whether each structure is in compliance with KDHE Industrial Wastewater Lagoon Requirements (K.A.R. 28-16-160 through 174). For any structure not meeting these requirements, a structure upgrade schedule shall be provided to bring the facility into compliance with the regulations. Earthen structures must meet the requirements of KDHE lagoon liner regulations or a variance must be issued.

VI ANNUAL FEE

Enclose a check for the first year of the annual fee (\$60.00) payable to "KDHE-Water Pollution Control Permit". **APPLICATIONS SUBMITTED WITHOUT PERMIT FEE ARE INCOMPLETE AND WILL NOT BE PROCESSED UNTIL THE FEE IS PAID.**

VII COORDINATION WITH OTHER STATE AND LOCAL AGENCIES

The proposed permittee is responsible for compliance with the requirements relating to the protection of Threatened or Endangered Species identified in K.A.R. 115-15-1 *et seq.* and requiring authorization from the Kansas Department of Wildlife and Parks; sites listed or eligible for listing on the National Register of Historic Places which are likely to be adversely affected; water appropriation from Kansas Department of Agriculture - Water Resources Division; and any other appropriate and applicable federal, state and local government laws.

VIII APPLICANT CERTIFICATIONS

I, the undersigned, certify that I have read and understand the requirements and conditions of the NPDES general permit for ready-mix concrete plants, concrete products plants and their associated facilities (as available on the KDHE web page at "http://www.kdheks.gov/water/tech.html"). I understand that continued coverage under the NPDES general permit for these discharges is contingent upon maintaining eligibility as provided for in the requirements and conditions of the general permit.

The undersigned hereby agrees the Settlement Structure(s)/Containment Structure(s) shall meet the criteria listed on page 3 in the instructions for this Notice of Intent - "Provisions for Construction of Settlement Structure(s)/Containment Structure(s)"; and if not an existing facility, the water pollution controls will be constructed prior to any discharge to surface waters in conformance with design plans, which are maintained at the facility site and shall be made available to KDHE personnel on request.

Further, I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on the inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.
